

Syllabus for B.Pharma (Ayurveda)

**Mahayogi Guru Gorakhnath Ayush University, Gorakhpur,
Uttar Pradesh -273306, India**

Scheme of Teaching & Examination

Semester-I

Subject Code	Subject Title	Teaching hours/week			Credits	Internal	ESE	Total
		L	T	P				
BPA-101T	Fundamentals of Ayurveda including Swasthavritta	3	-	-	3	25	75	100
BPA-102T	Fundamentals of Anatomy and Physiology	3	-	-	3	25	75	100
BPA-103T	Fundamentals of Dravyaguna Vigyan-I	3	-	-	3	25	75	100
BPA-104T	Computer & its applications in pharmaceutical Sciences*	2	-	-	2	15	35	50
HS101	Environmental Science*	2	-	-	2	15	35	50
HS102	Sanskrit *	2	-	-	2	15	35	50
BPA-111P	Fundamentals of Anatomy and Physiology	-	-	3	2	25	75	100
BPA-112P	Fundamentals of Dravyaguna Vigyan-I	-	-	3	2	25	75	100
BPA-113P	Computer & its applications in pharmaceutical Sciences*	-	-	3	2	15	35	50
	Total =	15		09	21			700

Scheme of Teaching & Examination

Semester-II

Subject Code	Subject Title	Teaching hours/week			Credits	Internal	Examination	
		L	T	P			ESE	Total
BPA-201T	Pharmaceutical Biology	3	-	-	3	25	75	100
BPA-202T	Pharmaceutical chemistry (Organic & Inorganic)	3	-	-	3	25	75	100
BPA-203T	Pharmacognosy & Phytochemistry-I	3	-	-	3	25	75	100
BPA-204T	Pharmaceutics-I (General and Dispensing Pharmacy)	3	-	-	3	25	75	100
BPA-205T	Rasa Shastra-I	3	-	-	3	25	75	100
BPA-206T	Dravyaguna Vigyan-II (Nutraceuticals)	3	-	-	3	25	75	100
HS201	English/Business communication*	2	-	-	2	15	35	50
HS202	Disaster management*	2	-	-	2	15	35	50
BPA-211P	Pharmaceutical Biology	-	-	3	2	25	75	100
BPA-212P	Pharmaceutical chemistry (Organic & Inorganic)	-	-	3	2	25	75	100
BPA-213P	Rasa Shastra-I	-	-	3	2	25	75	100
BPA-214P	Dravyaguna Vigyan-II (Nutraceuticals)	-	-	3	2	25	75	100
	Total =	22		12	30			1100

Scheme of Teaching & Examination

Semester-III

Subject Code	Subject Title	Teaching hours/week			Credits	Examination		
		L	T	P		Internal	ESE	Total
BPA-301T	Dravyaguna Vigyan-III	3	-	-	3	25	75	100
BPA-302T	Pharmacognosy & Phytochemistry-II	3	-	-	3	25	75	100
BPA-303T	Pharmaceutics-II (Physical Pharmacy)	3	-	-	3	25	75	100
BPA-304T	Pharmacology-I	3	-	-	3	25	75	100
BPA-305T	Rasa Shastra-II	3	-	-	3	25	75	100
BPA-306T	Pathophysiology	3	-	-	3	25	75	100
BPA-311P	Dravyaguna Vigyan –III	-	-	3	2	25	75	100
BPA-312P	Pharmacognosy & Phytochemistry-II	-	-	3	2	25	75	100
BPA-313P	Pharmaceutics-II (Physysical Pharmacy)	-	-	3	2	25	75	100
BPA-305T	Rasa Shastra-II	-	-	3	2	25	75	100
	Total =	18		12	26			1000

Scheme of Teaching & Examination

Semester-IV

Subject Code	Subject Title	Teaching hours/week			Credits	Examination		
		L	T	P		Internal	ESE	Total
BPA-401T	Pharmaceutical analysis of Ayurvedic Drugs-I	3	-	-	3	25	75	100
BPA-402T	Pharmacognosy & Phytochemistry-III	3	-	-	3	25	75	100
BPA-403T	Pharmaceutical Engineering	3	-	-	3	25	75	100
BPA-404T	Rasa Shastra-III	3	-	-	3	25	75	100
BPA-405T	Dravyaguna Vigyan-IV	3	-	-	3	25	75	100
BPA-406T	Pharmacology -II	3	-	-	3	25	75	100
HS-401T	Human values and Professional Ethics	3	-	-	3	25	75	100
BPA-411P	Pharmaceutical analysis of Ayurvedic Drugs-I	-	-	3	2	25	75	100
BPA-412P	Pharmacognosy & Phytochemistry-III	-	-	3	2	25	75	100
BPA-413P	Rasa Shastra-III	-	-	3	2	25	75	100
BPA-414P	Dravyaguna Vigyan-IV	-	-	3	2	25	75	100
	Total =	21		12	29			1100

Note: Industrial training of Thirty days (30) is to be satisfactorily completed before a student is declared eligible for the degree. Normally industrial training will be arranged at the end of 4th semester either in one stretch or two stretches during semester vacations.

Scheme of Teaching & Examination

Semester-V

Subject Code	Subject Title	Teaching hours/week			Credits	Examination		
		L	T	P		Internal	ESE	Total
BPA-501T	Herbal Drug Technology	3	-	-	3	25	75	100
BPA-502T	Pharmaceutical Analysis of Ayurvedic Drugs-II	3	-	-	3	25	75	100
BPA-503T	Pharmaceutical Technology for Ayurvedic drugs-I	3	-	-	3	25	75	100
BPA-504T	Rasha Shastra-IV	3	-	-	3	25	75	100
BPA-505T	Fundamentals of Bhaishajya Kalpana-I	3	-	-	3	25	75	100

BPA-512P	Pharmaceutical Technology for Ayurvedic drugs-I	-	-	3	2	25	75	100
BPA-513P	Rasha Shastra-IV	-	-	3	2	25	75	100
BPA-514P	Fundamentals of Bhaishajya Kalpana-I	-	-	3	2	25	75	100
	Industrial Training	-	-	-	2			
	Total =	15		12	25			900

Scheme of Teaching & Examination

Semester-VI

Subject Code	Subject Title	Teaching hours/week			Credits	Examination		
		L	T	P		Internal	ESE	Total
BPA-601T	Pharmacokinetics and Biopharmaceutics	3	-	-	3	25	75	100
BPA-602T	Pharmacology & Toxicology of Ayurvedic Drugs-I	3	-	-	3	25	75	100
BPA-603T	Bhaishajya Kalpana-II	3	-	-	3	25	75	100
BPA-604T	Pharmaceutical Microbiology	3	-	-	3	25	75	100
BPA-605T	Advanced Pharmacognosy	3	-	-	3	25	75	100
BPA-606T	Medicinal Chemistry	3	-	-	3	25	75	100
BPA-611P	Pharmaceutical Microbiology	-	-	3	2	25	75	100
BPA-612P	Advanced Pharmacognosy	-	-	3	2	25	75	100
BPA-613P	Bhaishajya Kalpana-II	-	-	3	2	25	75	100
	Total =	18		09	24			900

Note: Hospital training of 15 days is to be satisfactorily completed before a student is declared eligible for the degree. Normally hospital training will be arranged at the end of 6th semester either in one stretch or two stretches during semester vacations. *Non-university examination

Scheme of Teaching & Examination

Semester-VII

Subject Code	Subject Title	Teaching hours/week			Credits	Examination		
		L	T	P		Internal	ESE	Total
BPA-701T	Pharmaceutical Jurisprudence & Pharmaceutical Management	3	-	-	3	25	75	100
BPA-702T	Pharmaceutical Technology for Ayurvedic Drugs-II	3	-	-	3	25	75	100
BPA-703T	Pharmacology & Toxicology of Ayurvedic Drugs-II	3	-	-	3	25	75	100
BPA-704T	Instrumental Methods of Analysis	3	-	-	3	25	75	100
BPA-705T	Bhaishajya Kalpana-III	3	-	-	3	25	75	100
BPA-711P	Pharmaceutical Technology for Ayurvedic Drugs-II	-	-	3	2	25	75	100
BPA-712P	Instrumental Methods of Analysis	-	-	3	2	25	75	100
BPA-713P	Bhaishajya Kalpana-III	-	-	3	2	25	75	100
	Hospital Training	-	-	-	2			
	Total =	15		09	23			800

Scheme of Teaching & Examination

Semester-VIII

Subject Code	Subject Title	Teaching hours/week			Credits	Internal	Examination	
		L	T	P			ESE	Total
BPA-801T	Modern Analytical Techniques	3	योग	-	3	25	75	100
BPA-802T	Bhaishajya Kalpana-IV	3	-	-	3	25	75	100
BPA-803T	Clinical Pharmacy	3	-	-	3	25	75	100
BPA-804T	Yoga	3	-	-	3	25	75	100
BPA-805T	Herbal Cosmetics	3	-	-	3	25	75	100
BPA-806T	Marketing Management	3	-	-	3	25	75	100
BPA-811P	Modern Analytical Techniques	-	-	3	2	25	75	100
BPA-812P	Bhaishajya Kalpana-IV	-	-	3	2	25	75	100
BPA-813P	Yoga	-	होम्योपैथी	3	2	25	75	100
BPA-814P	Herbal Cosmetics	-	-	3	2	25	75	100
	Project Work	-	-	-	2			
	Total =	18		12	28			1000

Note: Students will be allotted to prepare one specific Ayurvedic formulation. They will study the SOP as well as manufacture the formulation by observing API norms and they will also perform Quality Control tests and make a conclusion of Drug/Formulation.

SEMESTER-I

SEMESTER-I**BPA-101TFUNDAMENTALSOFAYURVEDAINCLUDINGSWASTHAVRITTA**

TeachingScheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	EndSemester Examination	Total	ofEnd Semester examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit I

Ayurveda Nirupana Lakshana of Ayu, composition of Ayu Lakshana of Ayurveda. Lakshana and classification of Siddhanta. Introduction to basic principles of Ayurveda and their significance.

Introduction to Brihatrayi, Laghutrayi and their contribution in development of pharmaceutical science

Ayurveda Darshana Nirupana Philosophical background of fundamentals of Ayurveda. Etymological derivation of the word "Darshana". Nyaya, Vaisheshika, Sankhya and Yoga. Ayurveda as unique and independent school of thought Padartha: Lakshana, enumeration and classification, Bhava and Abhavapadartha, Padartha according to Charaka (Karana-Padartha).

Unit II

Dravya Vigyaniam Dravya: Lakshana, classification and enumeration.

Panchabhuta: Brief introduction of panchmahabhoot and lakshan and qualities of each bhoota. Kaala: Etymological derivation, Lakshana and division /units, significance in Ayurveda.

Dik: Lakshana and division, significance in Ayurveda. Atma: Lakshana, classification, seat, Gunas, Linga according to Charaka, the method/process of knowledge formation.

Purusha: As mentioned in Ayurveda-

Ativahikapurusha/Sukshma sharira/Rashipurusha/Chikitsapurusha/

Karmapurusha/Shaddhatvatmakapurusha.

Manas: Lakshana, synonyms, qualities, objects, functions, dual nature of mind (ubhayaatmakatvam), as a substratum of diseases, penta-elemental nature (panchabhutatmakatvam). Role of Panchamahabhuta and Trigunain Dehaprakriti and Manasaprakriti respectively.

Examination

Ten points for examination i.e. Kaarana, karana, karya, karyayoni, karyaphala, Anubandha, Desha, kala, Prakriti and Upaya and their utility and application in Pharmacy.

Introduction and utility of Pramana - Pratyaksha, Anuman, Aaptopadesh and Yukti.

Unit III

Swasthvrittaprayojna, swasthalakshana, swasthvritta, dincharya, dhumpana, vyayama, kshorkarma, abhyanga, shariraparimarjana, sanan, anulepanadi, vastra dharna, paduka, padatra, chattra, dandadharna, traupastambha, ratrichrya, swapnanidra, bhrmcharya, rituchrya, sanchya, prakopa, prashamna of dosha according to ritu, ritusandhi. Importance of aahar, nidra and brahmacharya. Importance of shuddhvayu, jala, deshaand kala.

Unit IV

Mansiksadvritta, samajikaswasthavritta, dharmikswasthavritta, dharniyaadharniyavega, sanshodhan andsanshamna, Rasayana and vajikarna. Communicable diseases, respiratory diseases such as tuberculosis, whooping cough, influenza, mumps etc. Intestinal infection such as Cholera, hepatitis, Typhoid etc. arthropod, borne diseases such as Dengue, malaria etc. Immunization: National immunization schedule and WHO EPI immunization schedule.

Text Books:

1. Dr. Ram Harsh Singh. Swasthvritta Vigyan Chaukhamba Prakashan, New Delhi, Varanasi.
2. Dr. Kashinath Samgandhi Swasthvritta Suddha Chaukhamba Prakashan, New Delhi, Varanasi.

Reference Books:

1. Charak Sahimta, Chaukhamba Prakashan, New Delhi, Varanasi.
2. Sushrat Sahimta, Meharch and Laksham and as Prakashan, New Delhi.

BPA-102TFUNDAMENTALSOFPHYSIOLOGYANDANATOMY

L	T	P/D	C	Sessional	EndSemester Examination	Total	OfEnd Semester examination
3	0	0	3	25	75	100	3hrs

Note: The question papers shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

FUNDAMENTALSOFPHYSIOLOGY

Unit I

a) Basic Tissues

Function of epithelial, connective, muscular and nervous, muscle contraction and properties. Nerve impulse generation and transmission including introductory knowledge of Dosha, Dhātu and Mal with their types and properties.

b) Body systems

Respiratory system: Respiratory volumes and capacities, ventilation, compliance and resistance, gaseous exchange and transport in blood, nervous and chemical regulation of respiration.

Renal system: Kidney and urinary tracts, nephron transport processes, concentration and dilution of urine, plasma clearances. Micturition.

Unit II

Blood and cardiovascular systems including Digestive system: Body fluids, roles of blood cellular

Component and plasma proteins, coagulation, blood

Groups, blood Disorders. "Circulation" cardiac cycle, impulse generation and transmission, electrocardiogram; hemodynamic; capillary

circulation; Detailed concepts of Doshas, Dhātu and mal, prakriti priksa and dhātu poshanyaya. Ayurvedic concept of Ojas and vyadhikshamatva.

Digestive system: Nutritional and Vitamin requirements, vitamin deficiencies, structure of alimentary canal, structure and functions of liver. Detailed concept of Agni. Classification and importance. Ayurvedic and modern concept of digestion and metabolism.

FUNDAMENTALSOFANATOMY

Unit III-

Introduction and Scope

Introductory knowledge of Anatomy.

Scope&TerminologyofAnatomy with concept of shadangsharira.

ElementarycellandtissuesoftheBody-EpithelialTissues,MuscularTissues,NervousTissue.

Unit IV

Skeletal muscles of the body. Nine regions of the abdomen and organs situated in these regions & basic anatomy of the organs e.g. liver, kidney, lungs, heart, pancreas, stomach. Introductory knowledge of Ayurvedic description of Asthi sandhi, Snayu and Kandara.

General introduction to male and female reproductive system with concept of Shukra, Aartav and Garbhavkranti.

Introduction to nervous system and special senses with Ayurvedic view of Gyanendriya.

TextBooks:

1. A.C. Guyton & J.E. Hall, Text book of Medical Physiology published in India by Prism Books Ltd. On arrangement with W.B. Saunders Company, U.S.A., U.S.A., Ninth Edition, 1996.
2. C.A. Keele, E. Neill and N. Joels, Samson Wright's Applied physiology, Thirteenth Edition, published by Oxford University Press, 1982.
3. Cunningham's Textbook of Anatomy, edited by G.J. Romanes, Eleventh Edition, published by Oxford University Press, 1972.

ReferenceBooks:

1. W.F. Ganong, Review of Medical Physiology, Thirteenth Edition, published by Appleton & Lange, U.S.A., 1987.
2. A.J. Vander, J.H. Sherman and D.S. Luciano, Human Physiology.
3. Ross and Wilson. Anatomy and Physiology in Health and Illness. Sydney: Churchill Livingstone.
4. Relative portions of Sushruta Samhita.

BPA-111(P): FUNDAMENTALS OF ANATOMY AND PHYSIOLOGY

Teaching Scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	Of End Semester examination
0	0	3	2	25	75	100	3hrs

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class.

List of experiments:

1. Introductory study of human skeleton.
2. Study of humerus, tibia, fibula, scapula, vertebra.
3. Study of different systems with the help of charts and models.
4. Study of preserved human organs.
5. Recording of body temperature, pulse rate and blood pressure.
6. Hb estimation, BT, CT recording.
7. Physico-chemical parameters of Urine.
8. Determination of Blood grouping.
9. Determination of Bleeding time.
10. Determination of Clotting time.
11. Estimation of Haemoglobin.
12. Demonstration of E.S.R.
13. Demonstration of E.C.G.

Text Books:

1. Gray's Anatomy, edited by P.L. Williams & R. Warwick, 38th Edition, published by Churchill Livingstone, 1995.
2. Cunningham's Textbook of Anatomy, edited by G.J. Romanes, Eleventh Edition and published by Oxford University Press, 1972.

Reference Books:

1. Tortora GJ, Derrickson B. Principles of Anatomy and Physiology. New York: John Wiley & Sons.
2. Ross and Wilson. Anatomy and Physiology in Health and Illness. Sydney: Churchill Livingstone.
3. Guyton AC, Hall JE. Textbook of Medical Physiology. New York: W.B. Saunders Co.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions andshallbe of20 marks.

Unit I

Definition & importance of Dravyagunaviganan.

Dravya - Definition, panchabhautic composition,properties and its importance Classification of Dravya:

A) According to Ayurvedic Principles:

(a)Karya-Karan bheda (b) Chetan-Achetanbheda (c)Panchbhautik composition (d)Yoni bheda (e)Prayogabheda (f)Rasa bheda (g)Veerya bheda (h)Vipakbheda (i)Doshkarmabheda

B) Classification of Ahara &Aushadhadravys according to Charaka Samhita, Sushruta Samhita &Bhavaprakash.

Unit II

Concept of Rasapanchaka,

A) Rasa- Definition, Types,Panchbhautic composition, properties, action on dosha,dhatu & mala.

B) Guna- Definition, classification of Guna, Panchmahabhautic composition of Sharira Guna, its properties and action on Dosha, Dhatu and Mala.

C) Veerya - Definition, concept of veerya, Enumeration of veerya, Properties, Action on Dosha, Dhatu and Mala.

D) Vipaka-Definition, Types, Properties and action on Dosha, Dhatu and Mala.

E) Prabhava-Definition, concept of Prabhava, action of Prabhava and importance of prabhava. Definition and concept of samanpratyarabdha and vichitrapratyarabdha.

Unit III

Definition, description and understanding of following karma with examples.

Deepan, Pachan, Grahi, Stambhan, Bhedan, Rechan, Anuloman, Sransan, Sanshodhan, Rasayana, Vajikaran, Vyavayi, Madkari, Vikasi, Swedana, Swedopaga, Snehana, Snehopaga, Vamana, Vamanopaga, Virechana, Virechanopaga

Unit IV

Description regarding following nighantus including primary introduction, author, period, classification & its specialty.

a) Dhanwantari nighantu b) Madanpalanighantu c) Kaidevanighantu d) Bhavprakashnighantu e) Raj nighantu.

Concept of Dravyasyakarmukativam (Mode of action) & Aushadhyogasyakarmukativam (Mode of action of classical formulations) according to Ayurveda.

Various impurities of drugs and their methods of purification:

1) Guggulu 2) Hingu

Adulteration of drugs and methods of identification:

1) Guggulu 2) Hingu 3) Lavang 4) Tvak 5) Kampillakchurna 6) Keshar 7) Madhu 8) Daruharidra

Text Books:

1. Dravyagunavijana; by Dr. Mansi Desh pandey, Chaukhamba Sanskrit Pratisnithana, New Delhi.

2. Dravyagunavijana Vol1-5 by Prof. Sharma P.V; published by Chaukhambha Bharti Academy, Varanasi.

Reference Books:

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

- a) Fundamental of Computer: Introduction to computers, Characteristics of computers, Historical perspective of computers, Computer generations, Types of computers and uses, Software and Hardware, Basic organization of a computer system and functions performed by each unit. Various Input devices like Keyboard, Mouse, Joy stick, Electronic pen, Track ball etc. and output devices Printers, Monitors. Memory storage: Memory Cells, Semi conductor and Magnetic core memory, ROM and its types, RAM, Cache and Virtual Memory. Secondary Storage devices and their organization (Hard disk, Floppy disk, CD and DVD).
- b) Operating System: Definition, Need and organization of OS, Functions performed by operating system. Type of Operating System. DOS, windows, Directories and files. Commands (internal & external). Icons, Clipboard. Folders, Major differences between a DOS and Windows.

Unit II

- a) Data Communication and Networks: Basic elements of a communication system, Data transmission mode, Network Topologies (ring, star, fully connected and Bus), LAN and WAN, Bounded and unbounded communication media.
- b) Internet Technology: Internet, Services provided by internet, Potential uses and abuses of internet, Working of search engine, Effective use of social media sites. Concept and implementation of E-Services (Digital India)

Unit III

- a) Computer Virus: Definition, Causes and symptoms of virus, Types of viruses, Detections, prevention and cure against viruses using antivirus software packages.
- b) Role of Computers in Pharmacy: Use of computer in various pharmaceutical and clinical applications like drug information services hospital and community pharmacy, drug design, pharmacokinetics and data analysis.

Unit IV

Ms Office Package:

- a) Word Processing Package: Features and uses of MS-Word processing, File handling (opening, creating, saving printing and editing), Formatting, Printing setups, Table Handling, Mail Marge, Spell check, fileprotection etc. in MS-Word.
- b) Spread sheet Package: Basics of spread sheet, feature and uses of Excel, Worksheet, formatting.

Sheets, Data (Sort and Filter), Calculation and graphing using formulae and function, Goal seek, scenario

- c) Presentation Package: Introduction to PowerPoint, features and uses of PowerPoint, creating a new presentation, editing and formatting, working with slides in different views, Animation, Transitions, Action buttons, Macros, Insert (text, slide, picture).

Reference Book

1. Sinha PK, Sinha P. Computer Fundamentals. New Delhi: BPB Publications.
2. Rajaraman V. Fundamental of Computers. New Delhi: Prentice Hall (India).

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class. Following is suggested a list of exercises out of which a minimum of 8/10 experiments must be performed by a student during the semester.

List of Practical's:

1. Basic exercises of MS Word
2. Basic exercises of Excel
3. Basic exercises of Internet
4. Basic exercises of Power Point presentation
5. Basic exercises of spreadsheets
6. Basic exercises of Email
7. Basic exercises of searching databases related to Ayurvedic Pharmacy
8. Basic exercises of Paint
9. Basic exercises of preparing Pdf files
10. Basic exercises of converting doc files into one another

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Introduction to Environment and Biodiversity

Definition; Natural and man-made environments and inter-relationships among them, components of environment and relationship between different components, Relationship between man and environment, impact of technology on environment, environmental degradation.

Biodiversity Introduction, genetic, species and ecosystem diversity, bio-geographic classification of India, value and importance of biodiversity, threats to biodiversity, endangered and endemic species in India, conservation of biodiversity.

Unit-II

Environmental Pollution:

Air Pollution: Composition of air, structure of atmosphere, ambient air quality standards, classification of air pollutants, sources of common air pollutants like SPM, SO₂, NO_x, natural and anthropogenic sources, effects of common air pollutants, carbon credit.

Noise Pollution: Introduction, sources of noise pollution, ambient noise levels, effects of noise pollution on human being and wildlife, noise pollution controls, noise standards.

Water Pollution: Introduction, water quality standards, sources of water pollution, classification of water pollutants, effects of water pollutants, eutrophication, and measures to control water pollution.

Unit-III

EnergyResources:Understandingnaturalresources,renewableandnon-Renewableresources,sustainableenergyresources,destructionversusconservation,forestresources,waterresources, food resources, energy resources and land resources, conventional energy sources and theirproblems,advantagesand limitationsnon-Conventionalenergysources,problemsduetooverexploitationofenergyresources.

Unit-IV

Social Issues and Environment: Sustainable development and practices of improving environment, Lawsandacts for environmentalprotection, wastemanagement.

TextBook:

1. NebelBJ, WrightRT.Environmentalscience-thewaytheworldworks.NewJersey:PrenticeHall.

ReferenceBook:

HS- 102 SANSKRIT

TeachingScheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	Of End Semester examination
2	0	0	2	15	35	50	3hrs

Section A: Grammar

A.

1. Forms of Rama and Vana (Masculine Gender and Neutral Gender). Andparasmaipadi verbal routes and verbs in present tense.
2. Study of seven cases (Karaka)
3. Forms of Hari in masculine gender and parasmaipadi verbs in future tense.
4. Bhanu in masculine gender and past tense.
5. Nethru in masculine gender and imperative mode.
6. Verb “Go” and potential mode.

B.

1. Latha, Dhanu and Mathi in feminine gender and atmanepadi verbs of first conjugation.
2. Verbs of forth a sixth conjugation.
3. Vari, Madhu words in neutral gender and verbs of tenth conjugation.
4. ‘Avyaya’ words and verbs of second conjugating.

C. Pronouns and Numeric.

D. Consonant ending words and fifth and eight conjugation.

Section B: Sanskrit Literature

- Prose and poetry from two stories of ‘Hithopadesha’.
- Maheshwar Sutram, Swara & Vyanjana knowledge.
- Swara sandhi, Vyanjana sandhi & Visarga Sandhi.

Reference books

- a) Laghu Sidhantakaumudi
- b) Anuvada Chandrika
- c) Hitopadesh (Author: Narayana Pandit)

SEMESTER-II

BPA-201 PHARMACEUTICALBIOLOGY

TeachingScheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Structure of typical plant cell and its important inclusions including mitochondria, ribosome's, chloroplast, nucleus, endoplasmic reticulum, Golgi apparatus, cytoplasm etc. Structure and functions of some important plant tissues like parenchyma, xylem, sclerenchyma, phloemetc.

Unit-II

General morphology of plants with special reference to external features of flowers (types of flowers- unisexual, bisexual, hermaphrodite and inflorescence), fruit and its types, seeds (monocot and dicot), barks, roots (tap root and adventitious root system), woods (hard and soft woods) and leaves (apexes, margins, venations, types)

Unit-III

Principles of classification of plants with special reference to the plants of the following families. Studies of chemical constituents and medicinal value of Rutaceae, Leguminosae, Umbelliferae, Apocynaceae, Solanaceae, Convolvulaceae, Euphorbiaceae, Liliaceae, Zingiberaceae.

Unit -IV

Definition of the crude, organized and unorganized drugs, Classification of the crude drugs including Alphabetical, morphological, microscopical, chemical etc.

Methods of systematic studies of the crude drugs, Cultivation methods, collection and storage of crude drugs.

Text Books:

1. A text book of 'Pharmacognosy' by R.K.Parmar, Vol.I, Edn.-I, P.Prakashan, India.

Teaching Scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	of End Semester Examination
0	0	3	2	25	75	100	3hrs

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class. Following is suggested list of exercises out of which a minimum of 8/10 experiments must be performed by a student during the semester.

List of experiments:

1. To study different parts of leaves.
2. To study different parts of flowers.
3. To study different parts of fruits.
4. To study different parts of compound microscope.
5. To study different parts of binocular microscope.
6. To study different root systems.
7. To study difference between mono-cot and di-cot plants morphologically.
8. To carry out morphology of leaves, flower and fruit.
9. To study different types of barks.
10. To study different plant tissues like Parenchyma, collenchyma, sclerenchyma, xylem, phloem etc.

Text Books:

1. A text book of Pharmacognosy by R.K. Parmar, Vol. I, Edn. -I, P. Prakashan, India.
2. Kokate CK, Gokhale SB, Purohit AP: Pharmacognosy 36th edn. Nirali Prakashan, Pune, India.

ORGANICANDINORGANICCHEMISTRY**

TeachingScheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

ORGANIC CHEMISTRY

Unit-I

a) Structure and Properties

Basic atomic and molecular structure with their properties-hybridization, valence bond theory, dipole moment, empirical formula, inter and intra molecular hydrogen bonding, ionic and covalent bonding in chemical compounds.

b) Aliphatic Compounds

Structure, nomenclature, preparation and reactions of alkenes and structure, nomenclature, preparation and reactions of alkynes. Inductive and electrometric effects.

Unit-II

a) Isomerism

Isomerism and nomenclature and associated physical chemical properties, optical activity.

b) Reaction Mechanisms

Addition reactions, Elimination reactions, Substitution reactions (nucleophilic and electrophilic substitutions).

INORGANIC CHEMISTRY

Unit-III

a) Introduction of Periodic Table

Introduction of periodic table, electronic configuration. Properties and important compounds of iron, gold and potassium.

b) Pharmaceutical Agents

Preparation and uses of Ammonium chloride and physical and chemical properties of Borax with their uses.

Unit-IV

a) Quantitative and Qualitative study

General introduction of Quantitative and Qualitative study of heavy metals (Lead, arsenic, mercury) in Ayurvedic preparation.

b) Titrimetric analysis

General introduction of Titrimetric analysis and General introduction of Gravimetric methods of analysis.

Text Books:

1) Sykes PA. A Guidebook to Mechanisms in Organic Chemistry. Hyderabad: Orient Longman.

2) Vogel. Vogel's Textbook of Micro and Semimicro Qualitative Inorganic Analysis. Hyderabad.

TeachingScheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks

Unit -I

Introduction to Pharmacognosy and Plant microscopy

Introduction, development, present status and future scope of Pharmacognosy. Techniques in microscopy covering use of mountants (water and glycerine), clearing agents (chloral hydrate), chemomicroscopic reagents (stains), micrometer, quantitative microscopy

Unit -II

Introduction to plant metabolites

Definitions of selected botanical terms related to groups of plant constituents: Carbohydrates, glycosides, tannins, lipids, volatile oils, terpenes, resins combinations, alkaloids, flavonoids, anthraquinones, coumarins, saponins, gums and mucilage's.

Unit-III

Sources of drugs

Terrestrial, Marine and Microbial and a brief

introduction of following groups with biological source, chemical constituents and uses of the drugs listed:

Thallophytes:

(a) Algae-Diatoms, Agar and Alginic Acid.

(b) Fungi-Ergot, Yeast and Mushrooms. Pteridophytes: Male fernale

Unit-IV

Spermatophytes:

(a) Gymnosperms-Medicinal importance of family Pinaceae.

(c) Angiosperms-Covering important medicinal plants of families with special reference to their biological source, major chemical constituents and uses: Apocynaceae, Compositae, Labiat

ae, Convolvulaceae, Liliaceae, Leguminosae, Papaveraceae, Rubiaceae, Rutaceae, Solanaceae, Scrophulariaceae and Umbelliferae.

TextBooks:

1. A textbook of Pharmacognosy by R.K. Parmar, Vol.I, Edn.-I, P. Prakashan, India.

L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit I

Introduction and Scope of the Profession and Metrology

Introduction and scope of pharmacy profession, official compendia and its uses in pharmacy profession.

Introduction to units of weights and volume in metric systems, imperial systems and SI system. Simple calculation involved in preparing solutions of solids in liquids (W/V), liquids in liquids (V/V), Method of allegation.

Unit-II

Monophasic Liquid Dosage Formulations:-

Formulation, characteristics, manufacturing procedure including examples of internal and external monophasic dosage form. Official pharmaceutical solutions, products for oral and topical use including mixture, syrups, elixirs, mouth washes, gargles, throat paints, aromatic waters, lotion and liniments, Douches, nasal and ear drops. Evaluation of monophasic liquid dosage formulations.

Unit III

Powder dosage forms

Official standards for powders as per IP/API, sieves and their usage in grading, bulk powders

for internal and external use. Special powder Dusting powders and insufflations, single dose powders, effervescent powders, hygroscopic powders, Efflorescent powders, Eutactic Mixture and granules. Evaluation of powder dosage form.

Unit IV

a) Prescription Description and part of a prescription, handling the prescription, reading the prescription, checking the written prescription, compounding the prescription.

b) Incompatibilities:-

Classification, Types and examples of Physical incompatibilities, Chemical incompatibilities and Therapeutic Incompatibilities.

Text Books: Recent editions of the following books to be referred

1. L. Lachman, H. A. Lieberman and J. L. Kanig, The Theory and Practice of Industrial Pharmacy, Lea and Febiger, Philadelphia, U.S.A.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Definition and etymology of word Rasa, brief history of Rasa Shastra, concept of Rasa shala, concept of Rasamandap, importance of Rasaushadhi, concept of Rasa & Rasayana, fundamental principles of Rasashastra.

Unit-II

Brief description of technical terminologies (Paribhasaprakarana)

Avapa, Nirvapa, Dhalana, Bhavana, Jarana, Murcchan, Shodhana, Marana, Varitara, Rekha, Apunarbhava, Uttama, Niruttha, Amritikarana, Lohitikarana, Mrtaloha, Satwapatana, Shuddhavarta, Bijavarta, Rudra bhaga and Dhanvantaribhaga etc. Concept of Shodhana, Marana and, Amritikarana with their importance as per classical and modern literature.

Dravyavarga Amlavarga, shiratraya, Madhuratraya, Panchamrttika, Panchagavya, Panchamrta, Kasarastaka, Dravakagana, Mitrapancaka, Raktavarga, Sweta varga, Lavanapancaka etc.

Unit-III

Brief description of yantra and their application

Ulukhalayantra, Khalvayantra, Kachchhapayantra, Urdhwapatanyantra, Adahapatanyantra, Jarana, arthtulayantra, Dolayantra, Damaruyantra, Vidhyadharayantra, Tiryakpatanayantra, Patalayantra, Palikayantra, Putayantra, Valukayantra, Lavanayantra, Bhudharayantra, Sthaliyantra, Swedanayantra.

Unit-IV

Brief description and application of Musha (crucible) and Kosti

Samanya Musa, Gostanimusa, Vajramusa, Mahamusa, Yoga musa, Vrintakmusa, Malla/pakwa

musa, different types of crucibles. Satvapatanakosti, Chullika, Patala kosthi, Gara kosthi, Angara kosthi and knowledge of various heating appliances viz. Gas stove, Hot plate and heating mantle.

Rasashalanirman (ancient and modern concept) with respect of GMP in accordance to schedule T.

HS-201 ENGLISH/BUSINESS COMMUNICATIONS

Teaching Scheme			Credits	Marks			Duration of
L	T	P/D	C	Sessional	End Semester Examination	Total	End Semester Examination
2	0	0	2	15	35	50	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

UNIT I

Introduction to Business Communication: Importance of communication in business, process and models of communication, Types of information, order, advice, suggestion, motivation, persuasion, warning and education.

UNIT II

Business Communication: Written Communication: Letters, Cover Letter, Differences between bio-data, CV and Resume, Letter for Job Application, Thank You Letter, Letter of Complaint, Memos, Memorandum drafting. E. Communication: Email, Social Media, Website Copy and Reports. Oral Communication: Types of oral communication, Barriers to oral communication, Mass Communication- Nature & Scope of Mass Communication, function of mass communication- Media of mass communication.

UNIT III

Business Report Writing: Report Writing: Types, Structure of a report, Methods and Models of Report Writing, Technical Proposal- Concept, Kinds, Layout, and Examples of Technical Proposals.

Types of reports: Progress reports, routine reports-Annual reports-format-Analysis of sample reports from industry- Synopsis and thesis writing.

UNIT IV

Spoken and Presentation Skills: Impromptu speech- tackling hesitation, shyness and nervousness in speaking -Public speaking, academic and

professional presentations –Group discussions-facilitate
orsandimpedimentsPlanning,preparingand delivering presentation,essentials of
presentation - etiquette, clarity, lively delivery - speechrhythm, speechinitiators body
language - voice, posture & gesture, eye contact, dress codes. Speech Drill,
Interviewing,Negotiatingajob offer.

HS202DISASTERMANAGEMENT

Teaching Scheme			Credits	Marks			Duration of
L	T	P/D	C	Sessional	End Semester Examination	Total	End Semester Examination
2	0	0	2	15	35	50	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will be set two questions from each Section/unit. However students may ask to attempt only 1 Question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

UNIT-I

Introduction: Principles of Disaster Management. Natural Disasters such as Earthquake, Floods, Fire, Landslides, Tornado, Cyclones, Tsunamis, Nuclear, Chemical. Assessment of Disaster Vulnerability of allocation and vulnerable groups, National policy on disaster Management. (6 Hrs)

UNIT -II

Prevention, Preparedness and Mitigation measures for various Disasters, Post Disaster Relief & Logistics Management, Emergency Support Functions and their coordination mechanism, Resource & Material Management, Management of Relief Camp, Information systems & decision making tools. (6 Hrs)

UNIT -III

Renewable and non-renewable resources, Role of individual in conservation of natural resources for sustainable lifestyles. Use and over-exploitation of Forest resources, Deforestation, Timber extraction, Mining, Dams and Their effects on forest and tribal people. (6 Hrs)

UNIT-IV

Global Environmental crisis, Current global environment issues, Global Warming, Greenhouse Effect, role of Carbon Dioxide and Methane, Ozone Problem, CFC's and Alternatives, Causes of Climate Change Energy Use: Past, present and future, Role of Engineers. (6 Hrs)

TEXTBOOKS:

1. DisasterManagementByG.K.GhoshA.P.H.PublishingCorporation.
2. EnvironmentalStudies,RRajgopalanOxfordUniversityPress

REFERENCEBOOKS:

SEMESTER-III

BPA-301T DRAVYAGUNAVIGYAN-III

Teaching Scheme			Credits	Marks			Duration of
L	T	P/D	C	Sessional	End Semester Examination	Total	End Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Introduction, Guna, Karma and uses of following jantavadravya (drugs of animal origin).

1. Kasturi 2. Gorochana 3. Gandhamarjaravirya 4. Mrigasringa 5. Bhunaga 6. Mukta 7. Pravala
8. Shankha 9. Shukti 10. Shambuka 11. Varatika 12. Indragopa

Introduction, knowledge of guna-karma and Action of following vargas.

- a) Dhanyavarga b) Shakavarga c) Krutannavarga d) Manshavarga e) Phalavarga
- f) Jala varga g) Dugdhavarga h) Dadhivargai i) Takravarga j) Navneet
- k) Ghrutavarga l) Tailvarga
- m) Madhu varga n) Ikshuvargao) Sandhanvarga

Unit-II

Ingredients and collective action of following Mishrakavarga.

Triphala, Madhuratriphala, Sugandhatriphala, Swalpatriphala, Trikatu, Trimada, Trikantaka, Trikarshika, Trijata, Chaturjata, Chaturbeeja, Chaturbhadra, Chaturushna, Shadushna, Panchakola, Panchavalkala, Panchapallava, Panchakshirivriksha, Panchatikta, Panchamahavisha, Saptaupavisha, Dashamoola, Bruhatpanchamoola, Laghupanchamoola, Trunapanchamoola, Kantakapanchamoola, Madhyamapanchamoola, Jeevanpanchamoola, Ashtavarga,

Unit-III

Detailed knowledge of following drugs with respect to Basonym of drug, Main Synonyms, Regional Name, Botanical Name, Family, classification of Dravya (Gana) as described in Charak, Sushrut and Bhavaprakashai.e. Habit and habitat/varieties, External morphology, Useful parts, Important phytoconstituents, Rasapanchaka, Action on Dosha, Dhatu, Mala, Therapeutic indications, Amayikaprayoga and Matra (Therapeutic administration and Dose), Name of important formulations, Adverse effects, remedial measures and Shodhana (as required)

- 1.Hingu2.Jambu3.Jatamamsi4.Jatiphala5.Jeerakadvaya
- 6.Jyotishmati7.Kalamegha8.Kampillaka9.Kanchanara10.Kantakaril11.Kapikacchu12.Karkat
- akshringi13.Karpura14.Katuki15.Khadira 16. Kiratatikta17.Kumari
- 18.Kupilu19. Kumkumkeara20.Kushmanda
- 21.Lavanga22.Kutaja23.Lodhra24.Madanaphala25.Manjishtha26.Maricha27.Markandika28.
- Musali29.Musta30.Nagakeshara

Unit-IV

Detailed knowledge of following drugs with respect to Anonym of drug, Main Synonyms,

RegionalName,BotanicalName,Family,classificationofDravya(Gana)asdescribedinCharak,SushrutandBhavaprakashai.eHabitandhabitat/varieties,Externalmorphology,Usefulparts,Importantphytoconstituents,Rasapanchaka,ActiononDosha,Dhatu,Mala,Therapeuticindications,Amayikaprayogaand-Matra(Therapeutic-administration-andDose), Name of important formulations, Adverse effects, remedialmeasuresandShodhana (as required)

- 1.Nimba 2.Nirgundi 3.Palasha 4.Palandu 5.Pashanabheda 6.Patala
- 7.Patola 8.Pippali-pippalimula 9.Punarnava10.Rasna 11.Chakramarda
- 12.Champaka 13.Chirbilva 14.Chopachini15.Dattura 16. Darbha
- 17.Dhanvayasa18.Dronapushpi19.Gandhaprasarini20.Garjara21.Gojihva,22.Gorakshaganja2
- 3.Gunja24.Hinstra25.Hrutpatri26.Indravaruni27.Ingudi28.Irimeda29.Isvari30.Japa

Textbooks

1. DravyagunavijanabyDr.MansiDeshpandey,ChaukhambaSanskritPratisnithana,NewDelhi.

2. Database on medicinal plants used in Ayurveda by CCRAS,New Delhi.
3. IndianMedicinalPlantsbyK.R.Kirtikar andB.D.Basu.

BPA-311P DRAVYAGUNAVIGYAN-III

Teaching Scheme			Credits	Marks			Duration of
L	T	P/D	C	Sessional	End Semester Examination	Total	End Semester Examination
0	0	3	2	25	75	100	3hrs

Note:

Practicals as per topics in the syllabus for the course will be conducted in the laboratory class.

1. Knowledge of identification of drugs mentioned in theory
2. Collection of minimum 50 herbarium specimen from outside state.
3. Compilation of a drug not less than 25 pages

Textbooks-

1. Dravyagunavijana by Dr. Mansi Deshpandey, Chaukhamba Sanskrit Pratishthana, New Delhi.
2. Dravyagunavijana Vol 1-5 by Prof. Sharma P.V; published by Chaukhamba Bharti Academy, Varanasi.

Reference Books:

1. The Wealth of India Publication and Directorate (CSIR, New Delhi)
2. Database on medicinal plants used in Ayurveda by CCRAS, New Delhi.
3. Medicinal Plants of Himachal Pradesh by Dr. N.S. Chauhan Minerva Publications.
4. Aushadha Namrupa Vigyanam by Dr. Sanjeev Kumar lal, published by Hemraj lal Indore

BPA-302TPHARMACOGNOSY&PHYTOCHEMISTRY-II

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	EndSemester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Systematic study of crude drugs (Synonym, Biological source, Chemical constituents, uses, substitutes, pharmacology etc.) and factor affecting cultivation (altitude, temperature, humidity, rainfall, soil, fertilizers, pest and pest control), Collection, harvesting (drying) and Storage of crude drugs with examples. River system, mineral wealth and medicinal plants of Himachal Pradesh.

Unit-II

Theory of extraction, properties of solvent, extraction techniques including Maceration, Percolation, Soxhlation, Hydrodistillation, Digestion, Decoction, Infusion and a brief introduction to isolation techniques of plant secondary metabolites.

Unit-III

A) Drugs containing Plant metabolites

Study of Biological source, Chemical constituents and uses of Carbohydrates- Starch-Maize, Amrita Satwa, Honey. Gums-Babulniryas, Shalmaliniryas. Muclia ges-Isabgola, Brihatgokshura, Bilvaphal, Svetamusli.

B) Study of Biological source, Chemical constituents and uses of Volatile Oils

Dhanyaka, Misreya, Krishnajeerka, Svetajiraka, Ajamoda, Yavani, Lavanga, Jaiphal, Talisapatra, Tamalapatra, Vastuka, Svetachandana, Vacha, Devadaru, Jatamansi, Nilgiri.

C) Study of Biological source, Chemical constituents uses and organoleptic characters of Tannis: Ashoka, Arjuna, Khadir, Karkatasringi, Mayaphal, Haritaki, Bhaibhitak and Amalaki.

Unit-IV

Study of Biological source, Chemical constituents and uses of Glycosides

a) Anthraquinone glycosides Svarnapatri, Kumari, Manjishta, Aragvadha, Chakramarda.

b) Cardiac -Karavira, Arka, Vanapalandu, Digitalis.

c) Saponins -Brahmi, Mandukparni, Laghugokshura, Arishtaka, Kantakari, Shatavari.

d) Flavonoids -Yashtimadhu, Bhallataka, Karanja, Kalmegh, Palash.

- e) Coumarians -Bakuchi,Ajamoda.
- f) Bitters -Kiratikta,Katuki,Guduchi.

Textbooks:

1. A textbook of 'Pharmacognosy' by R.K.Parmar, Vol.I, Edn.-I, P. Prakashan, India.
2. Kokate CK, Gokhale SB, Purohit AP: Pharmacognosy 36th edn. Nirali Prakashan, Pune, India.

Reference Books:

1. Evans WC (2002): Tease and Evan's Pharmacognosy. 15th edn., Saunders' Elsevier Pvt Ltd. New Delhi-24, India.
2. Quality Standards of Indian Medicinal Plants. New Delhi: ICMR.
3. Medicinal Plants of India. New Delhi: ICMR.

BPA-312P PHARMACOGNOSY& PHYTOCHEMISTRY-II

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
0	0	3	2	25	75	100	3hrs

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class. Following is suggested a list of exercises out of which a minimum of 8/10 experiments must be performed by a student during the semester.

List of experiments

- To prepare chemomicroscopic reagents like Glycerine-water, phloroglucinol, iodine water, chloral hydrate solution, picric acid solution etc.
- To carry out Morphology of leaves including leaf margins, venations, types.
- To carry out Morphology study of Dhanyaka.
- To carry out Morphology study of Khadir.
- To carry out Morphology study of Amalaki.
- To carry out Morphology study of Ashoka Twak, Haritki.
- To carry out T.S. Microscopy of Guduchi.
- To carry out T.S. Microscopy of Lavang.
- To carry out T.S. Microscopy of Misreya.
- To carry out extraction of some drugs by various methods studied in theory.
- Study of Leaf characters like trichomes and stomata of few drugs listed in the theory.
- To carry out extraction of volatile oils containing drugs listed in the theory.

Textbooks:

- A textbook of 'Pharmacognosy' by R.K. Parmar, Vol.I, Edn.-I, P. Prakashan, India.
- Kokate CK, Gokhale SB, Purohit AP: Pharmacognosy 36th edn. Nirali Prakashan, Pune, India.

Reference Books:

- Evans WC (2002): Trease and Evan's Pharmacognosy. 15th edn., Saunders' Elsevier Pvt Ltd. New Delhi- 24, India.
- Quality Standards of Indian Medicinal Plants. New Delhi: ICMR.
- Medicinal Plants of India. New Delhi: ICMR.
- S.S. Handa Textbook of Pharmacognosy Vallabh Publications, New Delhi.

BPA-303TPHARMACEUTICS-II(PHYSICALPHARMACY)

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

a) Introduction of following topics

Refractive index, density: bulk density, tapped density, angle of repose, use of screw gauge, vernier calliper and hardness tester for determination of tablet, vatti and guttic thickness and hardness.

b) Drug Stability: Physical degradation of drugs, chemical decomposition of drugs, Stability testing of dosage forms, storage methods and storage conditions.

Unit-II

Surface and Interfacial Phenomenon

Liquid interface, surface and interfacial tensions, capillary rise methods, surface free energy, spreading coefficient, wetting phenomena, contact angle, critical surface tension, detergency, surface active agents.

HLB: Hydrophilic Lipophilic balance: concept, application of HLB, required HLB.

Unit-III

Viscosity and Rheology

Concept of viscosity, Newtonian systems, Law of flow, factors affecting viscosity, Non-Newtonian systems: plastic flow, pseudoplastic flow, dilatant flow, thixotropy and its measurement, negative thixotropy, spur and bulges.

Determination of flow property:-Viscometers: capillary, falling sphere, Brookfield Viscometer, cup and bob viscometer and cone and plate viscometer.

Unit-IV

a) Suspensions

Suspension and its classification, advantages and characteristics of an ideal suspension, Interfacial properties of solids, formulation, preparation of suspensions.

b) Emulsions

Classification and advantages of emulsion, appearance and identification test, emulsifying agents,

physical instability problem, factors which improve physical stability of emulsion and preparation of emulsion.

Textbooks: Recent editions of the following books to be referred

1. Patrick J. Sinko, Martin's Physical Pharmacy. New Delhi: Wolters Kluwer Pvt. Ltd.
2. Subramanyam CVS. Textbook of Physical Pharmacy. New Delhi: Vallabh Prakashan.

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class. Following is suggested a list of exercises out of which a minimum of 8/10 experiments must be performed by student during the semester.

List of experiments:

1. Determination of refractive index of single or compound Ayurvedic drugs by Abbe's refractometer.
2. Determination of refractive index of single or compound Ayurvedic drugs by Hand's refractometer.
3. Determination of viscosity of single or compound Ayurvedic drugs by Ostwald Viscometer.
4. Determination of density, specific gravity of single or compound Ayurvedic drugs.
5. Determination of bulk density and tapped density of single or compound Ayurvedic drugs.
6. Determination of angle of repose of single or compound Ayurvedic drugs.
7. To prepare and dispense of single Ayurvedic drugs.
8. To prepare and dispense of compound Ayurvedic drugs.
9. Determination of thickness and diameter of tablet, Vatti, Guttika by screw gauge, vernier caliper.
10. Determination of Hardness of tablet of single or compound Ayurvedic drugs by Monsanto hardness tester.

BPA-304TPHARMACOLOGY-I

Teaching scheme			Credits	Marks			Duration of
L	T	P/D	C	Sessional	End Semester Examination	Total	End Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Introduction:

Definition, scope and development of pharmacological thought (historical development). ADME: Drug absorption, bioavailability, bioequivalence, route of drug administration, Plasma Protein binding, half-life of drug, biotransformation and Cytochrome P450 monooxygenase system and excretion of drug.

Molecular Pharmacology: Molecular mechanisms of drug action, receptors, theory of receptors, dose response relationship. Affinity constants, potentiation, antagonism phenomenon.

Unit-II

Pharmacology of Autonomic Nervous System: Autonomic neurotransmission, parasympathomimetics, parasympatholytics, sympathomimetics, sympatholytics, ganglion transmission and blocker, neuromuscular blocking agents and antispasticity drugs.

Unit-III

Pharmacology of Central Nervous System: Synaptic transmission in the CNS, general anaesthetics, hypnotosedatives, analgesics, antipyretics, anti-inflammatory agents and drugs used in gout, antiepileptics, anti-parkinsonian drugs, psychopharmacological agents (antipsychotics, anti-anxiety and antidepressant agents), CNS stimulants and hallucinogens.

Unit-IV

Local anaesthetics- Classification, mechanism of action, adverse effects, contraindications). (considering B.Pharm Ayurveda this topic can be replaced with relevant topic)

In-vivo Synthesis of Histamine and antihistamine- Classification, mechanism of action, adverse effects, contraindication

TextBooks:

1. Tripathi KD. Essential of medical Pharmacology, New Delhi: Jaypee Brothers Medical Publishers,

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Definition and types of Puta: Surya puta, Candra puta, Govara puta, Lawaka puta, Kukkutaputa, Kapota puta, Varaha puta, Gaja puta, Maha puta, Kumbha puta, Baluka puta, Bhudharaputa, Laghuputa.

Unit-II

Knowledge of Parada, synonyms, occurrence, natural and artificial sources of Parada, HinguladParade

extraction, types of rasa classification of Rasadravya, naisargika, yougika, aupadhika (kanchuka) etc Parada dosa and characteristics of Grahya-Agrahya Parada, Samanya and visheshashodhana of Parada, Parada astasamskara (aim, instruments, ingredients, method), Parada gati, paradvikar and prashaman and Rasa bandha.

Unit-III

Murchhana and Jarana of Parada, Preparation & examination of Kajjali, types of rasa sadhis, knowledge of khalviyarasayana e.g. Tribhuvana kirthi rasa, Sutsekhar rasa, Parpatikalpa, Rasaparpati, Tamraparpati, GaganParpati, Kupipakvarasayan-rasakarpura, Rasasindhura, Samirapannagarasa, Siddha Makardhwaja, Shila Sindoor, Tamra Sindoor, Swarna Vanga, Pottalikarpa-Hemagarbhapottali.

Unit-IV

Applications of Electric muffle furnace and fuel (diesel) dependant furnace. Brief introduction of Quality Control, Standardization & GMP's of Rasa aushadhis.

Text Books:

BPA-306TPATHOPHYSIOLOGY

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students maybe asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

1. Basic principles of Cell injury and Adaptation:
2. Introduction, definitions, Homeostasis, Components and Types of Feedback systems, Causes of cellular injury, Pathogenesis (Cell membrane damage, Mitochondrial damage, Ribosome damage, Nuclear damage), Morphology of cell injury - Adaptive changes (Atrophy, Hypertrophy, hyperplasia,
3. Metaphase, Dysplasia), Cell swelling, Intra cellular accumulation, Calcification, Enzyme leakage and Cell Death Acidosis & Alkalosis, Electrolyte imbalance
4. Basic mechanism involved in the process of inflammation and repair:
5. Introduction, Clinical signs of inflammation, Different types of Inflammation, Mechanism of Inflammation - Alteration in vascular permeability and blood flow, migration of WBC's, Mediators of inflammation, Basic principles of wound healing in the skin, Pathophysiology of Atherosclerosis

Unit-II

1. Cardiovascular System:
2. Hypertension, congestive heart failure, ischemic heart disease 2. (angina, atherosclerosis and arteriosclerosis) Respiratory system: myocardial infarction, Asthma, Chronic obstructive airways diseases.
3. Renal system: Acute and chronic renal failure

Unit-III

1. Haematological Diseases:
3. Iron deficiency, megaloblastic anaemia (Vit B12 and folic acid), sickle cell anaemia, thalassemia, hereditary acquired anaemia, haemophilia
4. Endocrine system: Diabetes, thyroid diseases, disorders of sex hormones
5. Nervous system: Epilepsy, Parkinson's disease, stroke, psychiatric disorders: depression, schizophrenia and Alzheimer's disease.

6. Gastrointestinal system: Peptic Ulcer

Unit-IV

1. Inflammatory bowel diseases, jaundice, hepatitis (A,B,C,D,E,F) alcoholic liver disease.
2. Disease of bones and joints: Rheumatoid arthritis, osteoporosis and gout
3. Principles of cancer: classification, aetiology and pathogenesis of cancer
4. Diseases of bones and joints: Rheumatoid Arthritis, Osteoporosis, Gout
5. Principles of Cancer: Classification, aetiology and pathogenesis of Cancer

Unit-V

1. Infectious diseases: Meningitis, Typhoid, Leprosy, Tuberculosis Urinary tract infections
2. Sexually transmitted diseases: AIDS, Syphilis, Gonorrhoea

Textbooks:

SEMESTER-IV

BPA-401TPHARMACEUTICALANALYSISOFAYURVEDICDRUGS-I

Teaching scheme			Credits	Marks			Duration of
L	T	P/D	C	Sessional	End Semester Examination	Total	EndSemesterExamination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Analytical Parameters of Ayurvedic Dosage Formulations viz. Solid, Liquid and Gaseous Formulations. Determination of different physico-chemical parameters of Solid Dosage Formulations like foreign matter, loss on drying, total ash content, acid insoluble ash, extractive values etc.

Unit-II

Determination of different physico-chemical parameters of Liquid Dosage Formulations like Boiling Point etc. Determination of alcohol content, volatile oil content, Optical Activity and its determination.

Unit-III

Determination of different physico-Chemical parameters of Gaseous Dosage Formulations. Methods for analysis of raw materials and single Ayurvedic drugs.

Unit-IV

Methodology to study toxicity of different Ayurvedic drug, metallic and Herbal formulations. Limits for toxicity studies as per WHO guidelines for example- Mercury, lead, Arsenic. In vivo methods for evaluation of toxicity.

Text Books:

1. A text book of 'Pharmacognosy' by R.K. Parmar, Vol. I, Edn.-I, P. Prakashan, India.
2. Munson JW. Pharmaceutical Analysis: Modern Methods. Part A & B. New York: Marcel Dekker.

Reference Books:

1. Willard HH, Merritt LL, Dean JA. Instrumental Methods of Analysis. New Delhi: CBS Publishers.
2. Ewing GW. Instrumental Methods of Chemical Analysis. Singapore: McGraw Hill.

4. Kemp W. Organic Spectroscopy: London: ELBS/WH Freeman & Co.

BPA-411P PHARMACEUTICAL ANALYSIS OF AYURVEDIC DRUGS-I

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	Of End Semester Examination
0	0	3	2	25	75	100	3hrs

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class. Following is suggested a list of exercises out of which a minimum of 8/10 experiments must be performed by a student during the semester.

List of experiments:

1. To study Loss on drying of Drug.
2. To study foreign matter of Drug.
3. To study Acid Value of Oil.
4. To study Acetyl Value of Oil.
5. Methods for analysis of raw materials and single Ayurvedic drugs.
6. To study total ash value of Drug.
7. To study acid insoluble ash value of Drug.
8. To study extractive value of Drug.
9. To study Iodine value of Oil.
10. To study acid soluble ash value of Drug.

Text Books:

1. A text book of 'Pharmacognosy' by R.K. Parmar, Vol. I, Edn. -I, P. Prakashan, India.
2. Munson JW. Pharmaceutical Analysis: Modern Methods. Part A & B. New York: Marcel Dekker

Reference Books:

1. Willard HH, Merritt LL, Dean JA. Instrumental Methods of Analysis. New Delhi: CBS Publishers.
2. Ewing GW. Instrumental Methods of Chemical Analysis. Singapore: McGraw-Hill.

HS-401 HUMAN VALUES AND PROFESSIONAL ETHICS

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	Of End Semester Examination
3	-	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Module 1

Course Introduction-Need, Basic Guidelines, Content and Process for Value Education.

1. Understanding the need, basic guidelines, content and process for Value Education
2. Self Exploration-what is it?-its content and process; Natural Acceptance
3. Continuous Happiness and Prosperity-Allocate basic Human Aspirations
4. Right understanding.
5. Understanding Happiness and Prosperity correctly-Critical appraisal of the current status.

Module 2

Understanding Harmony in the Human Being-Harmony in Myself!

6. Understanding human being as a co-existence of the sentient and the Material 'Body'
7. Understanding the needs of Self (T) and 'Body'-Sukh and Suvidha
8. Understanding the Body as an instrument of
9. Understanding the characteristics and activities of T and harmony in T

Module 3

Understanding Harmony in the Family and Society-Harmony in Human-Human Relationship

10. Understanding harmony in the Family-the basic unit of human interaction
11. Understanding values in human-human relationship: meaning of Nyaya and Program for its fulfillment to ensure Uhhay-tripfi: Trust (Vishwas) and Respect {Samman} as the foundation values of relationship
12. Understanding the meaning of Vishwas; Difference between intention and competence

Module 4

Understanding Harmony in the Nature and Existence-Whole existence as Co-existence

13. Understanding the harmony in the Nature
14. Inter connectedness and mutual fulfillment among the four orders of nature-Recyclability and self-regulation in nature.
15. Understanding Existence as Co-existence (Sah-asfitva) of mutually interacting units in All Pervasive space

BPA-402TPHARMACOGNOSY&PHYTOCHEMISTRY-III

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Study of biological source, chemical constituents and uses of secondary metabolites (Alkaloids present in:-

Vasaka, Datura, Indrayava, Arkapatri, Kutaja, Soma (Ephedra), Patha, Puga, Maricha, Vatsanabha, Ativisha, Ahiphena, Punarnava, Shankhapushpi, Sarpagandha and Daruharidra.

b) Volatile oils, aromatic oils/Resin/Resin Combinations Present in- Musta, Kulanjana, Kushtha, Ardraka, Haridra, Trivrit, Vijaya, Indravaruni, Vidanga, Kampillaka, Nagakesara, Guggulu, Shallaki, Sarala, Sarjarasa and Hingu.

c) Fixed oils and Waxes Present in- Eranda, Tila, Karanja, Jyotishmati, Madhucchishta (beeswax).

Unit-II

Evaluation of the crude drugs including Physical, Chemical, Biological evaluation and Factors affecting herbal drug Constituents including authentication, environment, time of harvesting, pesticides etc.

Unit-III

Brief introduction to Rasayana including its classification and important examples, Natural Pesticides and Allergens (inhalants, infectants, ingestants, injectants etc.). Brief concept of Aromatherapy.

Unit-IV

Quantitative microscopy

Camera Lucida drawings-Concept of Vein-islet number, Vein termination number, Palisade ratio, Stomatal Number, Stomata index, Measurement (Micrometry) of elements like Trichomes, Crystals, Xylem vessel, Fiber etc.

Text Books:

1. A textbook of 'Pharmacognosy' by R.K. Parmar, Vol. I, Edn.-I, P. Prakashan, India.
2. Kokate CK, Gokhale SB, Purohit AP: Pharmacognosy 36th edn. Nirali Prakashan, Pune, India.

BPA-412P PHARMACOGNOSY& PHYTOCHEMISTRY-III

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
0	0	3	2	25	75	100	3hrs

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class. Following is suggested a list of exercises out of which a minimum of 8/10 experiments must be performed by a student during this semester.

List of experiments

1. To draw a square of 1 mm using micrometer.
2. To study focusing of camera lucida.
3. To identify various types of stomata of few drugs listed in the theory.
4. To identify various types of trichomes of few drugs listed in the theory.
5. To carry out Stomatal Number and Stomatal Index of Datura.
6. To carry out Vein-islet Number of Vasaka and Datura.
7. To carry out Morphology study of Gunja, Madhucchishta.
8. To carry out Morphology study of Ardraka, Daruharidra
9. To carry out T.S. Microscopy of Vasaka, Datura leaves etc. (drug available)
10. To carry out T.S. Microscopy of Maricha.
11. Study of Plant cells contents starch, calcium oxalate and calcium carbonate crystals.
12. To carry out extraction of volatile oils listed in the theory.
13. To prepare chemomicroscopic reagents like Glycerine-water, safranin, sudan - iii, phloroglucinol, iodine water, chloral hydrate solution etc.

Text Books:

1. A text book of 'Pharmacognosy' by R.K. Parmar, Vol. I, Edn. -I, P. Prakashan, India.
2. Kokate CK, Gokhale SB, Purohit AP: Pharmacognosy 36th edn. Nirali Prakashan, Pune, India.

Reference Books:

1. Evans WC (2002): Trease and Evans's Pharmacognosy. 15th edn., Saunders' Elsevier Pvt Ltd. New Delhi-24, India.
2. Quality Standards of Indian Medicinal Plants. New Delhi: ICMR.
3. Medicinal Plants of Himachal Pradesh by Dr. N.S. Chauhan Minerva Publications.
4. S.S. Handa Textbook of Pharmacognosy, Vallabh Publications, New Delhi.

BPA-403TPHARMACEUTICAL ENGINEERING

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEndSemester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

a) Introduction

Fundamental principles/laws, simple cases of material and energy balances applied on single units, unit conversions.

b) Mixing of Solids:

Mechanism of mixing in solids, factors influencing mixing, classification of solid mixing equipments Double cone blender, Ribbon blender, Sigma blade mixer, Planetary mixer.

Unit-II

a) Filtration

Process and application of filtration, Mechanism, Theory of filtration, classification of filtration equipments, principle, construction, working, use of Plate and frame filter press, Rotary drum filters, Meta filters.

b)

Centrifugation Application, theory of centrifugation, classification of centrifuges, principle, construction, working, use of Perforated and non perforated basket centrifuge, Semicontinuous centrifuge, supercentrifuge.

Unit-III

a)

Evaporation Application, evaporation process, factors affecting evaporation, classification of evaporators. Theory of evaporation, heat transfer coefficient, material and energy balance.

Equipments:-

Principle, construction, working and use of evaporating pan, Horizontal, vertical tube evaporator, rising film, falling film, forced circulation evaporators, multiple effect evaporators.

Unit-IV

- a) Basic lawsof heattransfer Application, mechanismof heatflow(Conduction, convectionandradiation), principle, construction, working, use of shell tub e heat exchanger, double pipe heat exchanger, liquid to liquid interchanger.
- b) Materials for pharmaceutical plant construction: Factors affecting the choice for selection of material, classification of material for plant construction.

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

a) Maharasa

Identification, synonyms, occurrence, properties, grahya-agrahyalakshna, samanya-visheshshodhana, marana, dose, therapeutic uses and pharmacopoeial standards of bhasma following maharasa: Abhraka, Vaikranta, Makshika, Vimala, Shilajatu, Sasyaka, Chapala and Rasaka.

b) Uparasa

Identification, synonyms, occurrence, properties, grahya-agrahyalakshna, samanya-visheshshodhana, marana, dose, therapeutic uses and pharmacopoeial standards of bhasma following uparasa: Gandhaka, Gairaika, Kasisa, Kanksi, Haratala, Manahsila, Anjana and Kankustha.

Unit-II Sadharana Rasa

Identification, synonyms, occurrence, properties, grahya-agrahyalakshna, samanya-visheshshodhana, marana, dose, therapeutic uses and pharmacopoeial standards of bhasma following

Unit II Sadharana Rasa: Kampillaka, Gauri Pashana, Navasagara, Kaparda, Mrddarasnga, Agnijara, Gir i Sindura and Hingula.

Unit-III Dhatu

Identification, synonyms, occurrence, properties, grahya-agrahyalakshna, samanya-visheshshodhana, marana, dose, therapeutic uses and pharmacopoeial standards of bhasma following: Suddha Loha: Swarna, Rajata, Tamra, Loha, Mandura, Putiloha: Naga, Vanga, Yashada, Mishra Loha: Kamsya, Pittala, Varta Loha.

Unit-IV

Ausadhi Yoga Gyanam

Ingredients, manufacturing process, therapeutic doses and therapeutic uses of following compounds and formulations: Arogya Vardhini gutika, Karpura rasa, Kasturi bhairava rasa,

Kumarakalyanarasa, Garbhapala rasa, Candraprabha vati, Candramrta rasa, Pratapalankeswararasa, PravalaPancamrtarasa, Anandbhairavarasa, Yogendrarasa, Rajamrgankarasa, Rambanarasa, Laxmivilasarasa, VasantaKusumakararasa.

BPA-405T DRAVYAGUNAVIGYANA-IV

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Concept of Abhav pratinidhidravya (drug substitution):

Detail study by comparing Dravyaguna Vigyana, morphology and photochemistry of original and substitute drug 1) Pushkarmool- Kushtha 2) Murva- Manjistha 3) Daruharidra- Haridra 4) Bakuchi- Chakramarda 5) Bharangi- Talispatra/ Kantkarimool 6) Madhuyashti- Dhataki 7) Amlavetas- Chukra 8) Kunkum- Kusumbhkusum 9) Shweta Chandan- Karpur 10) Shweta Chandan and Karpur- Raktachandana 11) Raktachandan- Ushir 12) Ativisha- Musta 13) Bhallatak- Chitrak

Controversial aspects of Ayurvedic Drugs:

Study of Controversial drugs. Genesis, factors responsible for controversy, steps to resolve controversy. Study of following drugs including classical references, base of controversy, review of probable available candidates, resolution and conclusion.

(1) Rasna (2) Pashanbheda (3) Amalavetas (4) Brahmi (5) Murva (6) Sankhpushpi (7) Parpat (8) Priyangu (10) Kaknasa (11) Jivanti (12) Daruharidra
Knowledge of TKDL, IPR, Publications and related issues. Brief knowledge about WHO's "Essential Drug List". Knowledge about Pharmacovigilance (ADR) in Ayurveda and conventional system of medicine

Unit-II

Detailed knowledge of following drugs with respect to Basonym of drug, Main Synonyms, Regional Name, Botanical Name, Family, classification of Dravya (Gana) as described in Charak, Sushruta and Bhavaprakashai.e. Habit and habitat/ varieties, External morphology, Useful parts, Important phytoconstituents, Rasapanchaka, Action on Dosha, Dhatu, Mala, Therapeutic indications, Amayikaprayoga and Matra (Therapeutic administration and Dose), Name of important formulations, Adverse effects, remedial measures and Shodhana (as required)

1. Vidari 2. Vidanga 3. Yastimadhu 4. Yavani 5. Devadaru 6. Jati 7. Jayapala 8. Jeevanti 9. Kadali, 10. Kadamba 11. Kaidarya 12. Kamala 13. Kankola 14. Kakamachi 15. Karanja 16. Karira 17. Karpasa 18. Karavira 19. Karavellaka 20. Kasha 21. Kasni 22. Kataka 23. Katphala 24. Kharjura 25. Kitmari

Unit-III

Detailed knowledge of following drugs with respect to Basonym of drug, Main Synonyms, Regional Name, Botanical Name, Family, classification of Dravya (Gana)

As described in Charak, Sushrut and Bhavaprakashai.e. Habit and habitat/ varieties, External morphology, Useful parts, Important phytoconstituents, Rasapanchaka, Action on Dosha, Dhatu, Mala, Therapeutic indications, Amayikaprayoga and Matra (Therapeutic administration and Dose), Name of important formulations, Adverse effects, remedial measures and Shodhana (as required)

1. Rasona 2. Saireyaka 3. Shallaki 4. Saptaparna 5. Sarpagandha 6. Sariva 7. Shalaparni 8. Shalmali 9. Shankhapushpi 10. Shatavari 11. Shathapushpa 12. Shigru 13. Shirisha 14. Shyonaka 15. Thalipatrapa 16. Tila 17. Trivrut 18. Tulasi 19. Tvak 20. Ushira 21. Vacha 22. Varuna 23. Vasa 24. Vata 25. Vatsanabha.

Unit-IV

Detailed knowledge of following drugs with respect to Basonym of drug, Main Synonyms, Regional Name, Botanical Name, Family, classification of Dravya (Gana) as described in Charak, Sushrut and Bhavaprakasha i.e. Habit and habitat/ varieties, External morphology, Useful parts, Important phytoconstituents, Rasa panchaka, Action on Dosha, Dhatu, Mala, Therapeutic indications, Amayikaprayoga and Matra (Therapeutic administration and Dose), Name of important formulations, Adverse effects, remedial measures and Shodhana (as required)

1. Koshataki 2. Kokilaksha 3. Kumuda 4. Kusha 5. Lajjalu 6. Langali 7. Latakaranja 8. Latakasturi 9. Madayantika 10. Mahanimba 11. Mandukaparni 12. Mashaparni 13. Mayaphala 14. Methika 15. Meshashrungi 16. Mudgaparni 17. Mulaka 18. Nagabala 19. Nala 20. Narikela

BPA-406 PHARMACOLOGY-II

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Coagulants (Alum, Chitosan) and anticoagulants (heparin, warfarin, aspirin), Antiplatelet (clopidogrel, dipyridamole, aspirin) and fibrinolytic drugs (streptokinase and urokinase), haematinics (iron, Vit. B₁₂, folic acid, Vit. C)

Unit-II

Pharmacology of Endocrine System:

Introduction to endocrine Pharmacology, thyroid and antithyroid agents, hormones of pancreas and oral hypoglycemics, adrenocorticosteroids and adrenocortical antagonist, pituitary hormones, general hormones and their inhibitors,

Unit-III

Oral contraceptives uses, side effects and mechanism of action-
Levonorgestrel,

Estrogen, Progesterin and hormones regulating calcium homeostasis. Parathyroid hormone (PTH), 1,25-dihydroxy Vitamin D₃ (Vitamin D₃), and Calcitonin, regulate Ca⁺⁺ resorption, reabsorption, absorption and excretion from the bone, kidney and intestine.

Unit-IV

Chemotherapy of Microbial Diseases: General principle of chemotherapy, Sulphonamides, quinolones, penicillins, cephalosporins, aminoglycosides, protein synthesis inhibitors (tetracyclines), antimalarial drug, drugs for amoebiasis, helminthiasis. Chemotherapy of tuberculosis, RTCP, leprosy and chemotherapy of antiviral agent including drugs for HIV infection, anticancer drugs, Multidrug resistance (MDR).

INDUSTRIAL TRAINING

L	T	P	Credits, assigned	
-	-	-	2	

Industrial training of Thirty days (30) is to be satisfactorily completed before a student is declared eligible for the degree. Normally industrial training will be arranged at the end of 4th semester either in one stretch or two stretches during semester vacations. SOPs, STPs and log book preparation can be considered as a part of training.

SEMESTER-V

BPA-501 Herbal Drug Technology

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	Of End Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

- a) Study of cultivation, collection, substitutes, adulterants, diagnostic macroscopic and microscopic features and phytochemical tests for identity of drugs - Glycyrrhiza, Digitalis, Aloe, Senna and Datura.
- b) Study of botanical sources including alternative names, chemical constituents and therapeutic uses of the following indigenous traditional Drugs: Amla, Behera, Harad, Ashwagandha, Babchi, Brahmi, Vasaka, Bach, Tulsi, Shatavar, Shankhpushpi, Kutaki, Kalmegh, Gokhru, Chirata, Ashoka, Jatamansi, Kuth and Gilo.
- c) Good agricultural practices in cultivation of medicinal plants including Organic farming. Pest and Pest management in medicinal plants: Biopesticides/Bioinsecticides.

Unit-II

Study of the biological sources, chemical constituents and uses of drugs -
 Alkaloid Containing Drugs:--a. Pyridine- piperidine group: Tobacco, Areca and Lobelia's.
 Tropane group: Belladonna, Hyoscyamus, Coca. Quinine,
 isoquinoline group: Ipecac, Cinchona and Opium.
 d. Imidazole group: Pilocarpus. e. Steroidal group: Veratrum, Kurchi Bark and Guggulu. f. Alkaloid
 alkaline group: Ephedrine and Colchicum. g. Saponin containing drugs: Senega, Dioscorea. h. Ca
 radioactive drugs: Squill, Strophanthus, Thevetia. i
 . Anthraquinone cathartics: Rhubarb and Cascara. Volatile Oils: Rose oil, lavender oil, patchouli
 oil, sandalwood oil, lemongrass oil, orange oil, jasmine oil, geranium oil.

Unit-III:

Concept of adulteration including its types and detection methods and study of adulterants in the following drugs- Orange peel, cinnamon, nutmeg, eucalyptus, cardamom, fennel, Kuth and clove. A brief introduction to basic food laws in India and FSSAI.

Unit IV:

Concept of heavy metal toxicity in Ayurvedic drugs and methods for measuring the toxicity, plantadapt gens(history, definitionand examples), Anticancerplants withexamples.Sometraditional recopies/foodof Himachal Pradesh.

Textbooks:

1. Atextbookof 'Pharmacognosy' byR.K.Parmar, Vol.I,Edn.-I,P.Prakashan,India.

BPA-502TPHARMACEUTICALANALYSISOFAYURVEDICDRUGS-II

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	40	25	75	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Introduction of U.V. and Visible spectrophotometry with their application in the Ayurvedic Pharmaceutical Industry and how they are helpful in the growing industry of the Ayurveda, Principle, Instrumentation of U.V. and Visible spectrophotometry.

Unit-II

Introduction to Infrared Spectrophotometry with their sample preparation by different technique and detector used in I.R. Spectrophotometry and qualitative and quantitative applications in the field of the Ayurvedic Pharmacy.

Unit-III

Introduction of Chromatography-History, Chromatography terms, Techniques by Chromatographic bed shape, Displacement Chromatography, Techniques by physical state of mobile phase, Techniques by separation Mechanism, Special Techniques.

Unit-IV

Use of Chromatographic & Spectrophotometric methods for Standardization and evaluating quality of Ayurvedic Drugs and instrumental Analysis. Application, merits, demerits of Chromatographic & Spectrophotometric methods.

Text Books:

1. Kemp W. Organic Spectroscopy: London: ELBS/WH Freeman & Co.
2. Munson JW. Pharmaceutical Analysis: Modern Methods. Part A & B. New York: Marcel Dekker

Reference Books:

2. Ewing GW. Instrumental Methods of Chemical Analysis. Singapore: McGraw Hill.

3. Schirmer RE. Modern Methods of Pharmaceutical Analysis. Vol 1 & 2.
Pennsylvania: Franklin Book Co.
4. A text book of 'Pharmacognosy' by R.K. Parmar, Vol. I, Edn. - I, P. Prakashan, India.

BPA-511P PHARMACEUTICAL ANALYSIS OF AYURVEDIC DRUGS-II

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	Of End Semester Examination
0	0	3	2	25	75	100	3hrs

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class. Following is suggested list of exercises out of which a minimum of 8/10 experiments must be performed by a student during the semester.

1. To find out R_f value of different single and compound drugs by TLC method.
2. To determine paper chromatography of different single or compound drugs/formulations.
3. To determine Melting point of sulphur, borax.
4. To determine pH of different single or compound drugs/formulations.
5. To prepare standard solution.
6. To find out the Refractive index of different single or compound drugs/formulations.
7. To prepare solvent system for different single or compound drugs/formulations.
8. To establish primary parameter of Ayurvedic Drugs as per API.
9. To compare standard graph of single or compound Ayurvedic drugs UV.
10. To find out optical rotation of single or compound Ayurvedic drug sample.

Text Books:

1. Kemp W. Organic Spectroscopy: London: ELBS/WH Freeman & Co.
2. Munson JW. Pharmaceutical Analysis: Modern Methods. Part A & B. New York: Marcel Dekker

Reference Books:

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

a.) Ophthalmic preparations:

Essential characteristics, type, formulation, labeling, container of ophthalmic products- Eye drops, eye lotion, eye ointments, eye suspensions, contact lens solutions.

a.) Packaging of pharmaceutical products: Packaging components, types and stability aspects of packaging, factors influencing choice of containers of packaging, evaluation of packaging.

Unit-II

a.) Cream: Introduction,

Application, Classification, techniques used for formulation of pharmaceutical cream, evaluation of cream.

b.) Preservatives: Preservatives (Antioxidants and antimicrobial agents) used in pharmaceutical preparation with their concentration.

Unit-III

a.) Tablet:

Formulation and classification of different types of tablets, methods of formulation process of tablet (granulation), In-process quality control testing of tablets.

b.) Tablet coating: Types of coating, equipments for coating, coating process, evaluation tests for coating tablets.

Unit-IV

Capsules: -Hard gelatin, Soft gelatin

Advantages and disadvantages of capsule dosage form, material for production of hard gelatine capsules, size of capsules, method of capsule filling, soft gelatin, capsuleshell and capsule content, quality control testing of capsule and storage of capsule dosage forms.

Text Books: Recent edition of the following books to be referred

Unit-I

a) Ratna

Identification, synonyms, occurrence, properties, grahya-agrahyalakshna, samanya-visheshshodhana, marana, dose, therapeutic uses and pharmacopoeial standards of following ratna: anikya, Mukta, Praval, Tarkshya, Pusaparaga, Vajra, Nilam, Gomeda, aidurya.

b) Uparatna

Identification, synonyms, occurrence, properties, grahya-agrahyalakshna, samanya-visheshshodhana, marana, dose, therapeutic uses and pharmacopoeial standards of following upratna: Suryakanta, Candrakanta, Rajavarta, Pairojaka, Sphatikamani, Trnakanta, Palanaka, Puttika, Rudhira.

Unit-II

a) Sudhavarga

Identification, synonyms, occurrence, properties, grahya-agrahyalakshna, samanya-visheshshodhana, marana, dose, therapeutic uses and pharmacopoeial standards of following drug of sudhavarga: Sudha, Sukti, Sankha, Badarasma, Mrigasrnga, Khatika, Godanti, Samudraphena, Kukkutandtwak.

b) Siktavarga

Identification, synonyms, occurrence, properties, grahya-agrahyalakshna, samanya-visheshshodhana, marana, dose, therapeutic uses and pharmacopoeial standards of following drugs of siktavarga: Sikta, Dugdhasana, Nagapasana, Vyomasma, Sange Yeshab, Kouseyasma, Akika.

Unit-III

a) Ksara Varga

Identification, synonyms, occurrence, properties, grahya-agrahyalakshna, samanya-visheshshodhana, marana, dose, therapeutic uses and pharmacopoeial standards of following ksara: Sarjaksara, Yavaksara, Tankana Ksara, Surya Ksara.

b) Visha and Upavisha

Introduction, collection and storage, classification, synonyms, knowledge of its impurities,

Shodhana, vishaktalakshana (if any), antidote, therapeutic and toxic doses, therapeutic uses and formulations of following visha and upavisha: Vatsanabha, kuchala, jayapala, Dhatturabija, Bhang, Bhallataka, Gunja, Arka, Snuhi, langali, Karavira, Ahiphena, Chitrakamula.

Unit-IV

- a) Brief knowledge of standardization of Rasasauhadhis.
- b) Concept of Pharmacovigilance and its status in India with reference to Ayurvedic drugs.
- c) Schedule E-1 drugs (List).

Text Books:

1. Textbook of Rasa Shastra by Dr. K. Ramachandra Reddy, Chaukhamba Sanskrit Bhawan, Varanasi

SEMESTER-VI

BPA-601T PHARMACOKINETICS AND BIOPHARMACEUTICS

Teaching scheme			Credits	Marks			Duration of
L	T	P/D	C	Sessional	End Semester Examination	Total	End Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

a.) Introduction: Introduction to biopharmaceutics and pharmacokinetics, Fate of drug in the body. Experimental models of pharmacokinetics studies, schematic representation of pharmacokinetic process and drug therapeutics.

b.) Absorption: Mechanism of drug absorption (passive diffusion, active transport, facilitated diffusion and pinocytosis), factors influencing GI absorption of drug-pharmaceutical and patient related factors.

Unit-II

Pharmacokinetics: Basic consideration and Non Linear Pharmacokinetics:

a.) Pharmacokinetics-Basic Considerations: Significance of plasma drug concentration time profile, volume of distribution and distribution coefficient, pharmacokinetics parameters classification of pharmacokinetics models.

b.) Non Linear Pharmacokinetics: Causes of non-linearity, Michaelis-Menten equation, determination of V_{max} and T_{max} .

Unit-III

Biopharmaceutics: Bioavailability and Bioequivalence:

a.) Bioavailability: Objective, consideration and measurement to bioavailability by both methods pharmacokinetics and pharmacodynamic methods, Biopharmaceutics drugs classification System, Method of enhancement of bioavailability.

b.) Bioequivalence: Objective, Application of Bio equivalence Studies, general principles of bioequivalence, Criteria for bioequivalence requirement, Methodology for bioequivalence studies: -Objective of study, Study Subjects, Study design and conduct of study.

Unit-IV

- a.)Drug Excretion: Concept of clearance, mechanism of renal clearance, clearanceratio, hepatic clearance.
b.)Dissolution:-Conceptofdissolution,Theoriesofdissolution,in-vitrodruddissolutiontestingmodels,invitrosinkconditionanditsroleandInvitro-in vivocorrelations.

3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

General introduction to pharmacology and its role in the field of — Ayurvedic. Nature and source of drugs. Routes of drug administration such as intravenous, intra-muscular, intra-theccal, intra-dermal, intranasal, intrarectal, subcutaneous, intra-arterial, intra-spinal, intra-articular, intra-ocular etc. Mechanism of Drug transport (active and passive) and storage.

Unit-II

Pharmacology of Cardiovascular System: Digitalis and cardiac glycosides, Anti hypertensive drugs, Antianginal and Vasodilator drugs including calcium channel blockers and beta adrenergic antagonists, Antiarrhythmic drugs, Anti hyperlipidemic drugs, Drugs used in the therapy of shock.

Unit-III

Steroids and Related Drugs: ACTH, corticosteroids, Androgens and anabolic steroids, Estrogens, progesterone and oral contraceptives, Drugs acting on the uterus. Drugs Acting on Urinary System: Fluid and electrolyte balance, Diuretics.

Unit-IV

Type of drugs for the treatment of GI tract diseases. Appetizers, Digestants, carminatives, Emetics, anti-emetics. Laxative & anti-diarrhoeal, Pharmacotherapy of peptic ulcer.

General principles of clinical toxicology including insecticide poisoning, heavy metal poisoning, barbiturate poisoning, narcotic drug poisoning.

15. To prepare Panaka Kalpana.

Textbooks:

1. Textbook of Bhaishajya Kalpana Vigyana (A Science of Indian Pharmacy) by Dr. K. Ramachandra Reddy, Chaukhamba.
2. Textbook of Bhaishajya Kalpana Vigyan by Dr. Siddhinandana Mishra, Chaukhamba Sanskrit Bhawan, Varanasi.
3. Textbook of Bhaishajya Kalpana Vigyan by Dr. Santosh Kumar Mishra, Chakraborty Orientalia, Varanasi.

Reference Books:

1. The Drugs & Cosmetics Act 1940.
2. The Ayurvedic Formulary of India, Part-I & II Govt. of India Publication.
3. The Ayurvedic Pharmacopoeia of India Part-II, Govt. of India Publication.
4. Ayurved Sara Sangraha.
5. Rasa Tantra Sara avum Siddha Prayog Sangraha, Sri Krishan Gopal Bhawan Kaleda, Rajasthan.

BPA-604TPHARMACEUTICALMICROBIOLOGY

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Introduction, History and Scope of Microbiology, Microscopes, their magnification, resolution, illumination and filters, working of different types of microscopes (simple, compound, electron), micrometry.

Unit-II

Classification of microbes and their taxonomy-Protozoa, fungi, actinomycetes, bacteria, rickettsia, spirochetes and viruses. Nutrition, cultivation, isolation and identification of bacteria, actinomycetes, fungi, viruses. Bacterial enzymes.

Unit-III

Control of microbes by physical and chemical methods. Disinfection, factors influencing disinfection, disinfectants and antiseptics and their evaluation. Sterilization, different methods, evaluation of sterilization methods. Sterility testing of pharmaceutical products.

Unit-IV

Microbial attack and host defence, virulence and pathogenicity, primary and specific defensive mechanisms of body (humoral and cell mediated), infection and its transmission, interferon's. Application of microbiology in Ayurvedic Pharmacy.

Text Books:

1. Hugo and Russel. Pharmaceutical Microbiology. Oxford: Balckwell.
2. Pelczar PC. Microbiology. New Delhi: Tata McGraw Hill.

Reference Books:

2. PrescottLM, HarleyGP,KleinDA.Microbiology.Oxford:VCBrownPublishers.
3. IndianPharmacopoeia.NewDelhi:ControlleroPublications.

BPA-612P PHARMACEUTICAL MICROBIOLOGY

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	Of End Semester Examination
0	0	3	2	25	75	100	3hrs

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class. Following is suggested a list of exercises out of which a minimum of 8/10 experiments must be performed by a student during the semester.

List of experiments:

1. To carry out working and Principle of Compounds and Binocular microscope.
2. To study micrometry (draw scales)
3. To study working and Principle of Autoclave, hot air oven, laminar air flow, incubator etc
4. To prepare various types of culture media.
5. To study various sub-culturing of common aerobic and anaerobic bacteria, fungus and yeast
6. To study various isolation and identification of bacteria, fungus.
7. To carry out different sterilizing techniques
8. To prepare cotton plugs for sterilization.

Text Books:

1. Hugo and Russel. Pharmaceutical Microbiology. Oxford: Balckwell.
2. Pelczar PC. Microbiology. New Delhi: Tata McGraw Hill.

Reference Books:

1. Ananthanarayan A, Panickar J. Textbook of Microbiology. Hyderabad: Orient Longman.

BPA-605TADVANCEDPHARMACOGNOSY

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

- a) Introduction to the Study of mevalonic and shikimic acid pathways with special reference to the biosynthesis of: Tropane alkaloids and Terpenoids.
- b) Enzymes, its classification and Study of Biological sources, preparation and uses of the following enzymes: Papain, pepsin and pancreatic.

Unit-II

- a) Brief introduction to plant tissue culture techniques- Micro propagation, hairy root culture, root and shoot tip culture etc. Including nutritional requirements and applications of plant tissue culture.
- b) Photochemical Screening: Preparation of extracts and Screening of alkaloids, saponins, cardiac glycosides, flavonoids, tannins and polyphenols, anthraquinones, amino acids in plant extracts

Unit-III

- a) Basic introduction to different classes of plant growth regulators like auxins, cytokinins, gibberellins, abscisic acid and their physiological role. Concept of animal ethical committee and its guidelines.
- b) Study of Plant pesticides including rodenticides, nematocides, insecticides, fungicides. Herbs as health foods.

Unit-IV

- a) Study and applications of TLC, paper chromatography, column chromatography, Gas, HPLC, centrifugal partition chromatography.
- b) Quality control of crude drugs: Adulteration of crude drugs and their detection by organoleptic, microscopic, physical, chemical and biological methods and properties.

0	0	3	2	25	75	100	3hrs

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class. Following is suggested a list of exercises out of which a minimum of 8/10 experiments must be performed by a student during the semester.

List of experiments

1. To carry out extractive value of some drugs listed in API
2. To carry out Refractive index of some Ayurvedic drugs listed in API.
3. To prepare TLC plates by various methods.
4. To carry out TLC studies of some Ayurvedic drugs/formulations/volatile oil etc. listed in API
5. To carry out fluorescence analysis of some Ayurvedic crude drugs/extracts.
6. To carry out chemical test of Alkaloids.
7. To carry out chemical test of Steroids.
8. To carry out test for Saponins.
9. To carry out chemical test for Flavonoids.
10. To carry out chemical test for Tannins.
11. To carry out foreign matter analysis, Loss on drying, Swelling and Foaming index of some drugs listed in API.
12. To carry out isolation of volatile oil and carry out solubility test, refractive index, TLC profile of the oil obtained from camphor, eucalyptus oil.
13. To study different labels pertaining to Ayurvedic and Modern dosage forms.

Text Books:

1. A text book of 'Pharmacognosy' by R.K. Parmar, Vol.I, Edn.-I, P. Prakashan, India.
2. Kokate CK, Gokhale SB, Purohit AP: Pharmacognosy 36th edn. Nirali Prakashan, Pune, India.

BPA-606T MEDICINAL CHEMISTRY

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	Of End Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Drug Metabolism

Introduction: Xenobiotics and general pathways of drug metabolism;

Phase-I (Functionalization) and Phase-II (Conjugation).

a) Phase-I

Oxidative Reactions and Reductive Reactions with complete study of cytochrome P-450 and Flavin monooxygenase electron transport system.

b) Phase-II

Conjugation during drug

metabolism
mainly Glucuronic acid conjugation, sulphate conjugation, amino acid conjugation, glutathione conjugation, acetyl conjugation and methyl conjugation.

Unit-II

Antibiotic and Anti microbial Agents

The following topics shall be treated covering chemical naming, structure activity relationship, mode of action, Nomenclature, classification, antimicrobial spectrum, drug resistance, and synergism and uses. The emphasis would be only on B.P. and I.P. compounds.

a) General considerations with Sulphonamides and other synthetic antimicrobial agents.

b) Disinfectant and Antiseptics.

Unit-III

a) Amino glycosides and other antibiotic effective mainly against Gram-negative organisms.

b) Penicillin and other antibiotic effective mainly against Gram-negative organisms.

Unit-IV

a) Antineoplastic agent and Antiviral agents- Introduction to DNA, RNA and retroviruses, viral replication, interferon.

b) Cephalosporin's, Tetracycline's and other antibiotic are effective against both gram-positive and gram-negative organisms.

HOSPITAL/ PHARMACY/ AYURVEDIC MANUFACTURING UNIT TRAINING

L	T	P	Credits, assigned	
-	-	-	2	

Hospital/Pharmacy/Ayurvedic manufacturing unit training of 15 days is to be satisfactorily completed before a student is declared eligible for the degree. Normally hospital training will be arranged at the end of 6th semester either in one stretch or two stretches during end semester vacations.

Training or orientation at/ Pharmacy/ Ayurvedic manufacturing unit is required to see and understand ancient methods of manufacturing and process.

SEMESTER-VII

**BPA-701 PHARMACEUTICAL JURISPRUDENCE
& PHARMACEUTICAL MANAGEMENT**

Teaching scheme			Credits	Marks			Duration of
L	T	P/D	C	Sessional	End Semester Examination	Total	End Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Forensic Pharmacy - Acts, Rules & Regulations -

Unit-I

Code of pharmaceutical Ethics:- Introduction, code, pharmacist, in relation to his job, trade, his profession, pharmacist's oath.

The Drugs and Cosmetics Act and rules:- Introduction, definition, schedule to act and rule, import and registration of drugs and cosmetics, manufacturing of drug specified in schedule C, Provisions applicable to Ayurvedic (including Sidha), Unani and homeopathic drugs.

Unit-II

Narcotic drugs and psychotropic substances:- Introduction, definition, authorities, prohibition, control and regulation, offences and penalties, import, export of narcotics and drugs and Psychotropic drugs.

The Pharmacy Act:- Introduction, definition, PCI, State pharmacy councils, Registration of pharmacist.

Pharmaceutical Management:-

Unit-III

Management and its Principles:- Characteristics, importance, levels and function of management, scientific management, principles of management, coordination, communication, motivation and leadership quality of management.

Personnel Management:-

Objective, function of personnel management, recruitment, selection process, service condition, performance evaluation of personnel management.

Unit-IV

Channels of Distribution: Direct and indirect selling, types of middle man, wholesalers,retailers,moderntrends inretailingretaildepartmentalstore, chain stores,mailorder business.Pharmacist:-Recruitment,training,evaluation andcompensation tothepharmacist.

Teaching scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Sustained release formulation:

Objectives, advantage & limitation of sustained release tablets, Classification of Sustained release formulations, factors considerations such as physiological properties and biological properties and techniques for preparing sustained release formulations, evaluation of sustained release tablets.

Unit-II

Liposome's:-

Introduction, therapeutic application, classification of liposomes, method of Liposome preparation and drug loading, characterization of liposome's factors affecting liposome's, stability of liposome including accelerated stability testing, evaluation of liposomes, commercial manufacturing and scale up of liposome's.

Unit-III

a.) Microsphere:

Types of Microsphere, polymer used factors consideration for the preparation of microsphere, objective of microsphere, different techniques used to formulation of microsphere.

b.) Phytosome: Introduction, properties, advantages of phytosomes, method of preparation, and characterization of phytosomes and pharmaceutical applications of Phytosome.

Unit-IV

a.) Standardization of Herbal drugs:

Standardization parameters, quality assurance and stability testing of Herbal drugs as per WHO/ICH guidelines applicable to the various herbal drugs.

b.) Quality control test of Herbal drugs:-

In process quality control test for Ayurvedic tablet, Ayurvedic capsule, injectables and liquidorals (monophasic and biphasic).

BPA-704T INSTRUMENTAL METHODS OF ANALYSIS

Teaching scheme			Credits	Marks			Duration of
L	T	P/D	C	Sessional	End Semester Examination	Total	End Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Introduction of Spectroscopy Nature of electromagnetic radiations, the interaction between energy and matter, application of quantum mechanics theory, the absorption of energy by atoms and molecules, the emission of radiant energy by atoms and molecules; Applications in Pharmaceutical Industry.

Ultraviolet and visible spectrophotometry: Electronic excitation, quantitative laws, deviations from Beer's law, graphical presentation of data, chromophores, photometric error, instrumentation (light sources, prism and grating monochromators, photo missive and photomultiplier tubes), applications (direct and indirect methods, analysis of mixture).

Unit-II

Flame Photometry:

Theory quantitative description, experimental factors affecting fluorescence intensity, relationship of fluorescence structure, instrumentation (cell, light sources, wavelength selection and detectors), pharmaceutical applications.

Unit-III

a) Infrared spectrophotometry:

Theory, characteristic absorption and so organic functional groups, Frequency range, bandwidth and scan speed, concentration range and absorbance value, preparation of sample, sample cell, IR instrumentation, (light sources, monochromatic detector), qualitative and quantitative applications in pharmaceutical analysis.

b)

Introduction of Atomic absorption spectroscopy and applications of these techniques in the field of Ayurveda.

Unit-IV

Techniques by Chromatographic bed
shape 1. Column Chromatography 2. Planar Chromatography, Displacement Chromatography, Techniques by physical state of mobile phase-
1. Gas Chromatography 2. Liquid Chromatography.

Textbooks:

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Ausadhakalpana

Vatikalpana, synonyms of vati e.g. gutika, varti, vataka, pinda, pindi, modaka, modern aspect of vati (tablet), coating of tablets, polishing, vartikalpana, suppositories, guggulukalpana, lavana kalpana, arka lavana, narikel lavana, masikalpana, hastidant masi, triphala masi, ayaskrtikalpana, kshirapaka, ksharakalpana, ksharasutra, apamargaksara, snuhiksara.

Unit-II

Sneha kalpana

Ghrta, taila, snehamurcchana, ghrtamurcchana, tailamurcchana, sarsapatailamurcchana, general method of snehapaka, mrdupaka, madhyampaka, kharapaka, amapaka, dagdhapaka, patrapaka, gandhapaka, suryapaka (adityapaka).

Unit-III

Sandhanakalpana

Classification of sandhanakalpana, asava and arista kalpana, preparation of asava and arista, other types of sandhanakalpana, sidhu, sura, prasanna, kadambari, jagala, medaka, bakkasa, varuni, sukta, chakra, kanjika, sandaki, modern aspect of alcoholic formulations.

Unit-IV

Standardization protocols

Protocols for standardization for each step of drug production i.e. from the raw drug standardization to the standardization of finished product. Protocol-I, standardization of raw drug, Protocol-II, SOP's for preparation of extracts, Protocol-III, standardization of plant extract (part used), Protocol-IV, SOP's of finished products, Protocol-V, standardization of formulations.

In-process standardization: SOP's for preparation of Asava-Arista, Churna, Avaleha, Ghrita/Taila, Guggulukalpa, Vati. Final product standardization: Analytical specification of Asava-Arista, Churna, Avaleha, Ghrita/Taila, Guggulukalpa, Vati, Lepa, Kshara & Lavana.

PROJECTWORK

L	T	P	Credits, assigned	
-	-	-	2	

Students will be allotted to prepare one specific Ayurvedic formulation. They will study the SOP as well as manufacture the formulation by observing API norms and they will also perform QualityControltests andmake aconclusionofDrug/Formulation.

SEMESTER-VIII

BPA-801T MODERN ANALYTICAL TECHNIQUES

Teaching Scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	Of End Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

a) Nuclear Magnetic Resonance Spectroscopy

An introduction to the theory of NMR, magnetic properties of the nuclear magnetic moments, absorption of energy, chemical shift, shielding and deshielding, spin-spin coupling, NMR instrumentation, analytical application in pharmaceutical analysis.

b) Mass Spectrometry:

Instrumentation, Basic principle determination of the molecular formula, recognition of the molecular ion peak, fragmentation, mass spectra of simple compounds (saturated hydrocarbons).

Unit-II

a) Atomic Absorption Spectroscopy:

Theory of absorption of radiant energy by atoms, equipment, analytical applications.

b) Principle of Turbidimetry and Nephelometry with their Instrumentation and Applications.

Unit-III

a) Affinity Chromatography

Supercritical fluid Chromatography, Techniques by separation Mechanism

1. Ion Exchange Chromatography

2. Size exclusion Chromatography

3. EBA Chromatographic separation.

b) Special Chromatography Special Techniques-

1. Reversed phase Chromatography

2. Two dimensional Chromatography

3. Simulated moving bed Chromatography

4. Pyrolysis gas Chromatography

5. Fast protein Liquid Chromatography

6. Countercurrent Chromatography

7. Chiral Chromatography.

Unit-IV

a)X-Ray

The theoretical aspects, instrumentation, interpretation of spectra and applications of X-ray diffraction in Pharmacy.

b) Radio Immune Assay(RIA)

The theoretical aspects, instrumentation and diagnostic, medical and pharmaceutical applications of RIA

Teaching Scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	OfEnd Semester Examination
0	0	3	2	25	75	100	3hrs

Note:

Practical's as per topics in the syllabus for the course will be conducted in the laboratory class. Following is suggested list of exercises out of which a minimum of 8/10 experiments must be performed by a student during the semester.

List of experiments

1. Identification of Amino acids by Ascending Paper Chromatography.
2. Separation of Amino acids by Ascending Paper Chromatography.
3. Identification of sugars by Thin Layer Chromatography.
4. Separation of sugars by Thin Layer Chromatography.
5. Separation of active principle of Drug (Sumo) by Thin Layer Chromatography.
6. Identification of active principle by comparing with standard Drug.
7. Moisture Analysis in powder drugs.
8. Measurement of Optical activity in different drugs.
9. Measurement of Refractive Index.
10. Determination of ρ_H of various Extract.

BPA-802TBHAISHAJYAKALPNA-IV

Teaching Scheme			Credits	Marks			Duration
L	T	P/D	C	Sessional	End Semester Examination	Total	Of End Semester Examination
3	0	0	3	25	75	100	3hrs

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks. Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Pathyakalpna

Mandakalpna, yavagu, peya, vilepi, vilepiguna, anna (bhakta) kalpna, gunao fannakalpna, krisarakalpna, guna of krisara, kamblika and khada, raga-sadava, takrakalpna, Takrakalpna, ghola, guna of ghola, mathita, takra, udasvit, chacchika, katvara, dadhikurcika, takrakurcika.

Unit-II

Bahyakalpna

Lepa kalpna, doshghnalepa, visghnalepa, varnyalepa, technique of lepa application, time of lepa application, preservative of lepa, dasangalepa, some of the examples of lepa preparation, satadhautaghrta, sahasradhautaghrta, malaharakalpna (maraham), sarjara samalahara (ralamalahara), sikthatila, gandhakadya malahara, atasyadiupanaha, dhupanakalpna, ointments, creams, pastes, jellies, liniments, lotions.

Unit-III

- a) Netrakalpna- Seka, aschyotana, pindi (kavalika), bidalaka, aksitarpana, putapaka, anjana.
- b) Mukhakalpna- Gandusha and kavalakalpna, snaihikagandusakalpna, mukhapakagandusa, indications of gandusa and kavala, pratisarana (manjan), pratisaranayoga, irimedaditaila.
- Nasikakalpna- Classifications of nasya, navananasya, avapidanasya, dhmapananasya (pradhamananasya), dhumanasya, marsa, pratimarsanasya, nasya drugs mentioned by different authors, indications of nasya karma, contraindications of nasya karma, nasya ausadhikalpna, procedure of nasya karma, determination of dosages in nasya karma, instructions for the patients during nasya, nasya vyapada (complications), advantages of adequate nasya karma.

Unit-IV

a) Dhumpanakalpana

Dhumanadi,dhumpanakalpana,dhumpanapasctakarma,preparationofdhuma-
netra,Methodsofdhumpana,yogyafordhumpana,ayogyafordhumpana.

b)Vastikalpana

Classification of vastikalpana, karma vasti-kalavasti-yoga vasti, indications of asthapanavasti,contraindicationsofasthapanavasti,indicationsofanuvasanavasti,contraindicationsofanuvasanavasti, procedure of vasti karma, drugs commonly used for vastikalpapurpose,commonformulations meant for asthapanavasti, procedure of vasti, vastipratyagamakala,featuresof samyakavasti, features of asamyakavasti, features of excess (atiyoga) vasti, post-vasti regimen, activities should be avoided after vasti karma, vastivyapada (complications),modernaspectofenema.

Note: The question paper shall consist of four units as per the syllabus. The paper setter will set two questions from each Section/unit. However students may be asked to attempt only 1 question from each unit. Each question should be of 10 marks.

Apart from this, the paper setter will set question No. 9 which will be compulsory and cover the entire syllabus. This question should have objective or short answer type questions and shall be of 20 marks.

Unit-I

Clinical Pharmacokinetics

a) Clinical laboratory tests for Liver function and Kidney function. Drug Interactions Factors-

Drug determinants, Host determinants, Multiple drug therapy, Methods of investigating drug interactions, Clinical investigation of specific drug interactions, Pharmacokinetic aspects of drug interaction-Drug elimination, distribution and absorption. Prevention of drug interactions in general practice.

b) Drugs used in pregnancy, paediatrics and geriatrics. Management of cardiovascular disorders, CNS disorders, Gastro-intestinal diseases and respiratory diseases.

Unit-II

Drug information services, documentation and counselling of patients

Ambulatory patient care: Pharmacist's responsibility, proper use of medication, patient counselling,

drug utilization review, medication profiles, non-prescription drug usage, health education, new and expanded dimensions, healthcare delivery systems.

Patient compliance-

Noncompliance, factors associated with noncompliance, improving compliance.

Unit-III

Procurement and distribution of drugs in an Institution (Hospital Pharmacy)

Hospital - Definition of hospital pharmacy, organization, and facilities provided- pharmacist's responsibility - technical responsibilities (procurement, storage, dispensing, control, stock and inventory control, manufacturing sterile products, investigational drugs, I.V.

admixtures, radio

pharmaceuticals, assay and quality control), administrative and academic responsibilities.

Unit-IV

Intravenous admixtures, Intravenous fluid packaging systems, administrative sets, administration procedures including volume control method, piggyback method, patient controlled analgesia, final filter devices, intravenous admixtures—additives, parenteral incompatibility, total parenteral nutrition.

Theory

Unit-I

Introduction and importance of cosmetics as per description in Ayurvedic texts. Study of different medicinal plants described for use as cosmetics such as chandan, padmak, manjistha, sariva, mulathi, nagkesar etc. as mentioned under varnyamahakashaya.

Unit-II

Description of different classical formulations described for various cosmetic purposes such as lepa, oils, creams etc.

Unit-III

Study of various preparations used as mouth fresheners, face packs, hair oils, creams, lotions, pastes.

Unit-IV

Study and evaluation of parameters of modern technology in preparation of cosmetic products such as Cream, Shampoo and Gel.

Unit-V

Introduction of AFI and its importance.

Study of different dosage forms described in AFI.

Doses of different dosage forms described under AFI.

Shelf life of different Ayurvedic dosage forms as per API/AFI.

Text Books:

1. Relevant portions of Charaka, Sushruta, Vagbhata, Sarngadhara, Bhavaprakasha, Yogaratnakara, Madhavanidana and Bhelasamhita
2. AFI Part I & II and API (all Volumes)
3. Relevant parts of basic texts Chakradutt, Bhaishjaya Ratnawali etc.

Reference Books:
